HAL•LEONARD®

5 MAIN REASONS
WHY RETAILERS SOURCE TECHNOLOGY & GEAR FROM THE
HAL LEONARD MI PRODUCTS DIVISION

1 GREAT PRODUCT BRANDS

It starts with great products. We only distribute popular, proven-best sellers that create faster turns and higher customer satisfaction.

ALESIS
Hartke
LINE 6
Blue Microphones
IK Multimedia. Musicians First.
SAMSON

2 AWARD-WINNING CUSTOMER SERVICE

From our knowledgeable sales reps to our exacting fulfillment team, our award-winning service gives retailers confidence that they are buying the right products and will get them in a timely, consistent manner. Our 24/7 online support and online chat service provides multiple ways for retailers to submit, track and confirm every aspect of their order easily. That is why Hal Leonard has been named MMR Magazine's Dealers' Choice Print Music Publisher of the Year winner every year since 1997.

3 EXTENSIVE PRODUCT TRAINING

Hal Leonard provides volumes of training materials including videos via our YouTube channel (named "HalLeonardTech"), in-store clinics, demos at trade shows, and printed materials. This helps retailers and their staff understand what they are buying and help their customers get the right product. No other gear distributor provides this level of support.

4 VARIED AND CONSTANT MARKETING

Hal Leonard communicates in multiple ways to ensure retailers know about our products, special services, seasonal specials, and new releases. Via GearTALK email blasts, our monthly Herald newsletter, dealer trade shows, school state shows, fliers, phone calls, and store visits – Hal Leonard retailers are the best informed in the MI industry.

5 EFFECTIVE MERCHANDISING

Kiosks, displays, posters, and branded point-of-sale materials are provided by Hal Leonard to make sure storefront retailers present these products most effectively. We also offer a demo unit program that allows you to show products out of the box.

ZIVIX

Zivix developed the revolutionary Bluetooth enabled jamstik+ and PUC+.

ZT

Manufacturers of an ultra-compact amps line called Lunchbox. Loud enough to gig with and weighs less than 10 lbs.

LOOG GUITARS

The Loog is cute and small, but it's not a toy: it's a real guitar, made out of real wood that sounds amazing whatever style you play. Because it only has three strings and a narrow neck, it's easier to form chords and to make sense of what you are playing.

These starter guitar kits are designed to make it fun and easy to play music. With the included Loog app, you'll be able to play your favorite songs right on day one. Loog Guitars use the first three strings of a guitar: same strings, same tuning. This is why finger placement and everything you learn on a Loog can be applied on a 6-string guitar, too. This kit includes app with video lessons, a tuner and a songbook so you can learn guitar by playing real songs by the Beatles, the Rolling Stones, Taylor Swift, Katy Perry, Bruno Mars and more.

ChordBuddy Guitar Method – Volume 1

DVD

by Travis Perry and Elena Ryan

Take the fear and frustration out of learning the guitar with the ChordBuddy Guitar Method! This method book which correlates to the revolutionary ChordBuddy teaching tool featured on ABC's Shark Tank covers: how to tune; how to use a metronome, the five most common strum patterns, proper posture, how to hold a pick, proper strum technique, and more. It also includes a DVD demonstrating the course material with a teacher to facilitate learning. The teacher book also includes unit lesson plans, unit assessments, student journals, technology integration ideas, and common core connections.

00123872 Teacher Book with DVD $25.00
00123873 Student Book $15.00

ChordBuddy Teacher Review Pack

ChordBuddy Media

This Teacher Review Pack includes one ChordBuddy device, a Teacher's edition book/DVD, and a Student book – all at a special price, well below retail. It's intended to allow a teacher to put the device on a guitar and see how effectively it works and how the method books support a teacher as he or she leads the class. After this review, the teacher can then arrange to purchase multiple devices and books to outfit a classroom or school district.

00146769 ..... $35.00

Adult Dreadnought Acoustic Guitar

Perry

This adult dreadnought guitar is a full-size 42" acoustic guitar that has earned a "best in class" value. If you want a low-cost but nice-playing instrument to learn to play the guitar, or if you just need a good guitar to play and toss around without worry, this is the guitar!

Variax Limited Edition – Amethyst

Line 6

Inspired by the success of the Variax® Limited Edition Emerald, Line 6 recently asked guitarists to pick their favorite color for a new limited edition Variax in the Color Sweepstakes. More than 2,000 votes were cast, and the results are in! The new Variax Limited Edition Amethyst features a translucent-purple finish over a flamed-maple veneer top, with a matching headstock overlay, and a Limited-Edition insignia and numbered neck plate. The Variax Limited Edition Amethyst combines Variax HD sound, superb playability, and unmatched versatility with a beautiful custom finish.

Features include:

- Amethyst finish over a flamed-maple veneer top, with matching headstock overlay and black pickguard
- Small production run with Limited Edition badging and numbered neck plate
- Lightweight alder body with proprietary tremolo bridge
- One-piece maple neck with rosewood fingerboard and Graph Tech nut
- Three Yamaha Alnico V single-coil pickups
- Wide range of guitar sounds and alternate tunings via Variax HD modeling
- HD guitar models based on historic Fender, Gibson, Rickenbacker and other renowned vintage instruments

00256041 ..... MSRP $1099.99 • MAP $899.99

Variax Shuriken Guitar

Line 6

If you like to perform with heavier strings and lower tunings, Variax Shuriken features a 27" scale length that delivers optimized playability and punchier, more-precise tones. The extended scale length also works in conjunction with Variax alternative tunings – so you can play in any tuning, regardless of the tension and feel of the strings. With Variax Shuriken, you can go far beyond the range of any standard 6, 7 or even 8 string guitar.

Like all guitars in the Variax family, Variax Shuriken gives guitarists instant access to a wide range of guitar models and alternate tunings via Variax HD modeling technology. Instrument models and alternate tunings can be accessed with a simple twist of a knob. Variax Shuriken also features custom guitar model and tuning presets created by Stevic MacKay.

Variax Shuriken can be incorporated into any guitar rig, but is uniquely optimized for use with Line 6 modelers and multi-effects, including the Helix, POD HD and Firehawk families. Create special presets that allow you to change amp, effect, and guitar models, as well as guitar tunings, all on the fly with the touch of a switch.

DT SERIES

DT25 25W/10W
1x12 Combo Guitar Tube Amplifier
Line 6

The DT25 amp gets to the point. It's a simple, two-channel amp with a streamlined front panel. But if you connect a POD® HD multi-effect pedal or POD® HD Pro multi-effect rack to this little monster the two integrate to become a boutique tube amp factory! Connected via exclusive L6 LINK™ technology, the DT25 amp and POD® multi-effect rewrite the traditional amp/multi-effect paradigm and introduce powerful new concepts in control and customization. Add effects, additional amp voicings, foot control and instant scalability (including stereo operation with multiple DT25 amplifiers). DT25 is the perfect pairing for POD HD multi-effects.

00122945 .....MSRP $1399.99 • MAP $999.99

DT25
1x12 Extension Guitar Speaker Cabinet
Line 6

The DT25™ 1x12 Extension Cabinet is the perfect pairing for the portable DT25™ 25W/10W tube amp from Line 6 and tube-amp guru Reinhold Bogner. The cabinet features a front-ported, closed-back design that produces a HUGE sound much bigger than its small footprint. The 12-inch custom Celestion® G12H-90 speaker delivers clean tones that sparkle and sing, creamy overdrives that respond to the intricacies of your picking and searing high-gain tones that launch themselves from the cabinet.

00122947 .....MSRP $419.99 • MAP $299.99

DT50 1x12
25/50W Guitar Amplifier
Line 6

Line 6 DT50™ goes further than any other amplifier to produce the best amp tones. The 25/50W guitar amplifier breathes unparalleled warmth, feel and depth into the 4 classic amp voicings on which all great amps are based. New Line 6 HD modeling technology and reconfigurable analog circuitry (courtesy of Reinhold Bogner's flexible 50W, EL34 tube design) produce the most authentic tones.

00122948 .....MSRP $1849.99 • MAP $1299.99

DT50 2x12
25/50W Guitar Amplifier
Line 6

Line 6 DT50™ goes further than any other amplifier to produce the best amp tones. The 25/50W guitar amplifier breathes unparalleled warmth, feel and depth into the 4 classic amp voicings on which all great amps are based. New Line 6 HD modeling technology and reconfigurable analog circuitry (courtesy of Reinhold Bogner's flexible 50W, EL34 tube design) produce the most authentic tones. The classic 2-channel design offers ease, speed and total analog reconfiguration with the flick of one switch. All muscle, no learning curve.

00122949 .....MSRP $2149.99 • MAP $1499.99

DT25 Head
25W/10W Guitar Amplifier Head
Line 6

The new DT25 1x12, 25W/10W combo tube amp from Line 6 and tube-amp guru Reinhold Bogner is four boutique tube amps in one! The powerful combination of reconfigurable analog components and HD modeling allows the DT25 amp to produce stunning American cleans, British crunch, class A chime and modern high-gain. Selectable operating class (Class AB/25 Watts/Fixed Bias or Class A/10 Watts/Cathode Biased), power tube mode (Pentode or Triode) and four lust-worthy amp Voicings (which offer the perfect combinations of negative feedback loop topology, and HD preamp and tone stack modeling) can dial in classic vintage tones or be shaped into highly customized originals – and each one drips with boutique tone and touch-response.

00122946 .....MSRP $1289.99 • MAP $899.99

DT50 Head
25/50W Guitar Amplifier
Line 6

DT50™ goes further than any other amplifier to produce the best amp tones. Many amplifiers offer either modeling technology or reconfigurable analog circuitry, but DT50 offers both to deliver something bigger than the sum of its parts. New HD modeling technology, a host of switchable analog components, and a simple and elegant 2-channel interface – DT50 guitar amplifiers are in a category all their own. Brand-new Line 6 HD modeling technology fuels each voicing's preamp and tone stack, and automatically pairs them with dynamic analog circuitry including tube configuration and negative feedback topology (courtesy of Reinhold Bogner's uniquely versatile 50-watt, EL34 power section).

00122950 .....MSRP $1649.99 • MAP $1199.99

DT50 4x12 Extension Cab

Line 6

Line 6 DT5™ 4x12 extension cab for DT50 guitar amplifiers. Cross-loaded with (2) 12" Custom Celestion® G12H90 speakers and (2) 12" Celestion® Vintage 30 speakers. Straight front with slant baffle and closed back. This cab is built to last of 11-ply poplar. Features solid, heavy-duty casters and recessed handles. 8-ohms.

00122951 ..... MSRP $1149.99 • MAP $799.99

FIREHAWK SERIES

Firehawk 1500

High Powered Stage Amp

Line 6

Featuring award-winning tone, advanced editing control, and unmatched volume flexibility on stage, Firehawk™ 1500 is a 1500W/132dB SPL 6-speaker stage amp for guitarists who want to perform with great live sound, at any volume. Get true stereo sound – wet/dry/wet – and perfect tone replication from the 6-speaker amplification system. Dial in amazing tone with the largest collection of HD/XT amps, cabs, and effects in the Line 6 family. Quickly manage your patches and presets with a streamlined and modern graphic editing workflow using the Firehawk Remote app, or onboard editing using Live Edit. Plus, a wide range of IO makes it easy to perform with acoustic guitars, traditional pedal boards, multi-effects, and more.

Lunchbox Amp

The World's Smallest Stage Amp

ZT Amplifiers

ZT's highly acclaimed original new-concept amp is used by professionals for live performance, backstage, and studio recording. Less than 10 pounds with enough power for any gig. Use solo or power an external cabinet. Some of the music industry's top professionals have been using the ZT Lunchbox amp since it was introduced in 2009, and the list keeps growing. The amp features a 6.5" speaker and 200 watts. This amp is a true breakthrough!

00119981 .....MSRP/MAP $449.00

Lunchbox Amp Carry Bag

ZT Amplifiers

Custom-sized, water resistant, padded shoulder bag for the ZT Lunchbox amplifier and the Lunchbox Cab. Expandable front pocket with zipper for pedals & cables. (Note: Fits the ZT Lunchbox amplifier only.

00119976 .....MSRP/MAP $39.99

Lunchbox Acoustic Amp

2-Channel Acoustic Guitar/Vocal Amplifier

ZT Amplifiers

The ZT Lunchbox Acoustic is the most lightweight and compact pro-quality 2-channel acoustic guitar/vocal amp on the market today. Players frequently comment that the Lunchbox Acoustic is "the most natural sounding acoustic amp" they have ever used. ZT went to great effort to achieve this result, careful to avoid "coloring" the instrument's sound, and instead making your guitar sound like your guitar – just louder. And by utilizing the amp's power to assure the low frequencies so important to acoustic guitars remain strong despite the 6.5" speaker size, ZT succeeded in making the Lunchbox Acoustic sound much bigger than it is.

00119979 .....MSRP/MAP $499.00

Lunchbox Acoustic Carry Bag

ZT Amplifiers

Custom-sized, water resistant, padded shoulder bag for the ZT Lunchbox amplifier. Expandable front pocket with zipper for pedals & cables. (Note: Fits the ZT Lunchbox ACOUSTIC amplifier only.

00119972 .....MSRP/MAP $39.99

Junior Lunchbox Amp

The World's Smallest Stage Amp – Huge Sound, Battery Option & Pedal Power

ZT Amplifiers

The surprising and impressive ZT Junior brings you a level of performance simply not available in an amp of this size until now, delivering the sonic power and refinement of a great full-sized combo flowing out of a package just over 6 inches tall. The Junior has a huge sound with battery power option – it was honored with *Premier Guitar* magazine's Premier Gear Award in their January 2013 issue. The amp features a 5" speaker and 35 watts.

00119982 .....MSRP/MAP $249.00

Junior Carry Bag

ZT Amplifiers

Custom-sized, water resistant, padded shoulder bag for the ZT Lunchbox amplifier. Expandable front pocket with zipper for pedals & cables. (Note: Fits the ZT Lunchbox JUNIOR amplifier only.

00119975 .....MSRP/MAP $39.99

Lunchbox Cab

Extension Cabinet for ZT Lunchbox Amp

ZT Amplifiers

The ZT Lunchbox Cab is a passive extension speaker, with the same cabinet and custom-designed 6.5" driver as the ZT Lunchbox amp. Adding the Cab to a ZT Lunchbox amp increases overall output and adds a bit of bottom end to your system. Whether you build a Lunchbox stack or spread them apart on stage, the Lunchbox Cab's built-in phase switch provides accurate sound in any situation.

00119980 ..... MSRP/MAP $179.00

Junior Battery Pack (12-Volt)

ZT Amplifiers

The ZT 12V Battery Pack is a 12V power supply designed to power the ZT Junior amp for at least 2 hours. It fits easily in the pocket of the ZT Junior Carry Bag and uses 8 x AA batteries (not included) for easy backup/replacement.

00119973 ..... MSRP/MAP $24.99

Junior Pedal Cable Kit

ZT Amplifiers

The ZT Junior 12V Car Adapter Cable powers the ZT Junior amp from a car! This standard car cigarette lighter adapter features a coiled cable that extends to 12 feet (366cm). Male center-positive plug that is 2.5 x 5.5 mm.

00119974 ..... MSRP/MAP $19.99

Junior Pedal Cable Kit

ZT Amplifiers

The ZT Amplifier ZT Junior Pedal Cable Kit will power effects pedals right from your ZT amplifier! Kit contains 2 cables to connect and power up to 2 pedals from a ZT amplifier 9V output.

00119977 ..... MSRP/MAP $19.99

British Invasion Mini Amp

The British Invasion is inspired by Legendary VOX AC30. It captures the main characteristics of the legendary AC30 at low volume. Tweak the 3-band EQ, Volume and Gain knobs to recreate some authentic British Sound in your living room!

00138401 .....MSRP $149.99 • MAP $99.99

Heart Attack Mini Amp

Heart Attack is the newest member of the Nano line, and it is for metal heads. It is similar to the other Nano amp heads in its compact design and five huge watts of output. But it is unique in sound and feel. The Heart Attack design is based on the Mesa Boogie Rectifier, offering metal players that classic hard rock high gain sound. You can pull it out of your pocket and unleash an unimaginable mass of energy plugged in, all without losing control.

00139631 .....MSRP $189.99 • MAP $139.99

Purple Wind Amp

Purple Wind is a 5W Class AB Guitar Amplifier Head. It captures the main tonal characteristics of the legendary Plexi Super Lead. With 3-band EQ and Gain/Volume control you're set for classic rock on the stage or at home. Sound inspired by the legendary Marshall Plexi SuperLead 1959 (Limited Edition).

00138400 .....MSRP $149.99 • MAP $99.99

Mojo Diamond Mini Amp

5W Class AB Guitar Amplifier Head

Mojo Diamond is a 5w Class AB guitar amplifier head inspired by legendary Fender Tweed. Like the original Tweeds, Mojo Diamond has a tiny body and loud, sweet sound. With the 3-band EQ, Volume and Gain control, you can easily create some shining sound that makes you stand out from others everywhere!

00154393 .....MSRP $149.99 • MAP $99.99

Thunder Bass Mini Amp

Thunder Bass, which we all guessed, is an amp head for bassists. Based on the Ampeg SVT, Hotone somehow got all the big thunderous sound into a mini-sized amp. Whether you are the bassist in the spotlight or the one keeping the pulse in the shadows, this solid amp will suit. Flexible and dynamic, it's as stable as the most stable member of the band.

00139632 .....MSRP $189.99 • MAP $139.99

Nano Legacy Cabinet

The Nano Legacy Cabinet was designed from the bottom up especially for Nano amp heads, but it can be matched with any micro head you like – and it works for guitar and bass alike! In order to guarantee a good bass response and quality highs and mids, the Nano Legacy Cabinet utilizes a special Hotone-designed speaker. It also boasts an inverter tube design – found more often in hi-fi amps than guitar amps – which also helps with the bottom end. Unique among other guitar cabs, the Nano Legacy Cabinet has both IN and OUT jacks, so you can connect cabs together.

00140837 .....MSRP $109.99 • MAP $69.99

HOTONE

VOX HEADPHONE AMPLIFIERS

With amPlug 2, the crucial analog circuit has been drastically improved, and each model now provides three modes. Guitar types provide multi-effect functionality, and a rhythm function has been added to the bass type. A foldable plug mechanism that rotates 180 degrees and an auto power-off function are additional features that contribute significantly to improved convenience and ease of use. The amPlug is the simplest way to get serious sound; occupying virtually no space, it's an ideal choice for any guitarist or bassist.

amPlug2 – AC30
VOX

The AC30 provides the AC30 top boost sound.

00220843
.....MSRP $54.99 • MAP $39.99

amPlug2 – Bass
VOX

The Bass model is designed specifically for low frequencies, offering a wide-range response.

00220846
.....MSRP $54.99 • MAP $39.99

amPlug2 – Blues
VOX

The authentic, crunchy blues tone of a cranked tweed amp.

00265481
.....MSRP $54.99 • MAP $39.99

amPlug2 – Classic Rock
VOX

The amPlug 2 Classic Rock delivers the classic crunch of a UK-made 100W amp.

amPlug 2 Cabinet
2-Watt Mini Cabinet
VOX

The amPlug2 Cabinet features increased output power and flexibility, letting you enjoy guitar/bass sound while taking full advantage of the amPlug2's potential. The latest amPlug2 Cabinet even allows you to connect your guitar directly and use it as a stand-alone mini-amp. You also can connect an external audio source via the new AUX input and jam along with your favorite tracks.

00265484
.....MSRP $39.99 • MAP $29.99

VOX AMPLIFICATION LTD®

iRig Nano Amp
Battery-Powered Micro Amplifier & Interface for Mobile Devices
IK Multimedia

The IK Multimedia iRig Nano Amp is tailor-made for on-the-go electric guitarists. Not only does it operate as a handy miniature guitar/bass amplifier, it also houses an iRig 2 interface for connecting to your iPhone or iPad. Rocking out on this battery-powered guitar amplifier is a blast, thanks to a British-emulating tone stack that pumps out 3 watts of Class B power through a 3" speaker. And when it's time to lay down some tracks, fire up the included AmpliTube app on your smart device and let 'er rip. Experience the ultimate in low-volume jamming with the IK Multimedia iRig Nano Amp.

OVERDRIVE PEDALS

385
Overdrive Pedal
Walrus Audio

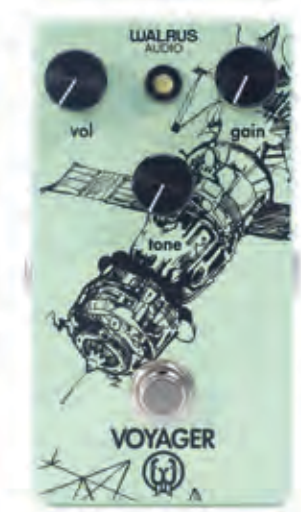
Dynamic, responsive, tube-like, and amp-like. The 385 Overdrive is boastfully responsible for all those adjectives. For decades now, guitarists in search of pure tone have been taking the tube-powered audio sections of vintage film projectors and using it as a guitar amp. Heads up – it sounds amazing. After endless hours of research on vintage Bell and Howell 385 Filmosound projector, Walrus has created a fantastic new overdrive modeled after the projector's tone. The Bell and Howell 385 gracefully lends itself to create an amazing guitar amp. Its simple, but effective controls, plus dual 6V6 output section make for a simple and extremely responsive amp that has an amazing compressed overdrive when cranked. THIS was the sound and feel Walrus needed to shoot for in an amp-like pedal. The 385 was developed to have the same simple but effective tone control as its grandfather. The amp has this as well but bass and treble are stacked behind the single tone knob.

00251342 ..... MSRP/MAP $199.00

Messner
Transparent Light-Gain Overdrive Pedal
Walrus Audio

The Messner is a low gain-transparent overdrive boasting a wide range of overdrive possibilities. It is designed to preserve the natural voice of your guitar by not coloring your tone, but giving the user the ability to dial in and out the exact amount of tone they desire. A toggle switch allows the user to bypass the clipping diodes from the circuit in the open position and employ them in the closed position, allowing a wide range of breakup from subtle to dramatic. Flip it to the open position and dial in a lower drive setting to add subtle aggression to your tone. Run it in the closed position and turn the gain knob up for more compressed and punchy tones. The color control works in all modes, giving you the ability to dial in brighter tones as you turn it up and darker tones when turned down. If you are looking for a low gain, dynamic overdrive that won't hide your guitar's natural characteristics, meet my friend, the Messner.

00251356 ..... MSRP $189.00
..... MAP $99.00



Voyager
Preamp/Overdrive Pedal
Walrus Audio

The Voyager is a gain/preamp overdrive that boasts a full spectrum of tone from any setting on its simple set of controls. From its lowest to highest settings, the Voyager provides a uniquely superb amount of clarity to any style of playing. At lower gain settings, it brightens the signal and adds clarity to each note played. With the gain turned up, the Voyager transforms into a thick overdrive, providing depth to chorded playing while retaining the clarity needed to break through on solos. Has True Bypass switching.

00251364 ..... MSRP/MAP $189.00

Warhorn
Mid-Range Overdrive Pedal
Walrus Audio

The Warhorn is a mid-range, transparent overdrive pedal that's capable of punchy rhythm, to searing Texas Blues leads. For added versatility, the pedal features a toggle switch that provides two flavors of clipping. The up position is a more compressed, symmetrically clipped tone, and the down position is an asymmetric, more open and organic sound. It includes Level, Drive, Bass and Treble controls providing a large range of tweaking and shaping options for your original tone.

The Warhorn comes in "pristmatic gold" enclosure with white, cream and black ink. Artwork features a warrior at the front lines brandishing an intricate battle horn leading his army in a victorious battle.

00251365 ..... MSRP/MAP $199.00

WALRUS® AUDIO

FUZZ/ DISTORTION PEDALS

Janus
Tremolo/Fuzz Pedal with Joystick Control
Walrus Audio

The Janus is a true bypass, dual joystick controlled Tremolo/Fuzz pedal that allows you to create a landscape of distorted textures. Both the Tremolo and the Fuzz can be isolated and used alone, but can also be used together in series creating thick textures with a lot of movement. Each joystick has a separate X and Y axis that has designated controls. The Tremolo joystick controls the rate and depth while the Fuzz joystick controls the amount of fuzz and the tone. There are individual Volume controls for both effects and a Blend control for the Fuzz that allows the user to mix unaffected signal with the effected fuzz signal. The joystick controls make the Janus a great option for guitars, vocals, keys, or tracks.

00251352 ..... MSRP/MAP $289.00

Jupiter
Multi-Clip Fuzz Pedal
Walrus Audio

The Jupiter is a true bypass fuzz pedal inspired by the desire for gritty, thick and loud fuzz. Fuzz pedals tend to emphasize specific frequency ranges, which is both a positive and negative attribute. The Jupiter's controls allow you the ability to dial in the right amount of fuzz with the right tonal quality to either stand out in the mix, or ride it out with the drums and rhythm. It includes a Mode switch that changes between three different clipping diode arrangements, providing more options and combinations of fuzz and tone and a Bass boost toggle switch for increased low end.

00251354 ..... MSRP/MAP $199.00

Iron Horse
Distortion LM308 Pedal V2
Walrus Audio

The Iron Horse is a return to the classic distortion: thick, punchy, riffy and rowdy. It is full of high gain and perfectly made for the rock guitarist in need of thick rhythm or cutting solos. Dial back the gain and it can be used as a thick, warm overdrive. The Iron Horse has three distortion modes operated by a toggle switch that changes between different clipping diodes providing more versatility in shaping the tone of the distortion. It has three control knobs: Level, Tone and Distortion and True Bypass switching.

00251351 ..... MSRP/MAP $199.00

COMPRESSION PEDAL

Deep Six
Compressor Guitar Pedal
Walrus Audio

The Deep Six is a true bypass studio-grade compressor in stomp box form, inspired by the performance of the Universal Audio 1176 with the simplicity of the Ross and Dynacomp. Offering a Level, Sustain, Attack, and Blend control, the Deep Six will give you unmatched versatility at a price you can afford. The pedal can be powered from a 9V battery or DC Supply. Polarity will never be an issue as the Deep Six comes standard with a polarity correction circuit. The internal voltage is doubled to 18 volts giving you the maximum amount of headroom for your sound while maintaining a typical current draw of 8.9mA for extended battery life. The Deep Six also offers a Blend and Attack control which allows you to use the pedal with active pickups or humbuckers. The blend feature allows you to use high output instruments while truly being able to dial out any distortion that may be present.

00251348 ..... MSRP/MAP $199.00

DELAY/REVERB PEDALS

ARP-87

Multi-Function Delay Pedal

Walrus Audio

The ARP-87 is a compact, feature-rich delay, packed with a large pallet of inspirational delay tones. Featuring four main algorithms, digital, analog, lo-fi, and slap back, the ARP-87 can cover some serious ground in the world of echoes. The Digital algorithm boasts pristine, crystal clear repeats great for rhythmic riffs. The Analog setting works well to add warmth and dimension to chords and lines without getting in the way. The Lo-Fi algorithm, with its adjustable frequency range on the repeats, goes from warm, warped, and murky, to strait AM radio. Finally, the Slap setting makes it easy to dial in a great slap back echo perfect for smoking chicken pickin' runs. With other features like our smart bypass switching, and momentary knob ramp, the ARP-87 provides endless creative opportunities that are waiting to be explored.

00251345 ..... MSRP/MAP $199.00

Bellwether

Analog Delay Pedal with Tap Tempo

Walrus Audio

The Bellwether is a bucket brigade delay pedal with tap tempo. Offering analog circuity and up to 1000ms of lush delays, the Bellwether ushers in a rich soundscape of long and short trails. It can achieve the warm saturated sounds found in delays like the Maxon AD999 and the coveted Boss DM-2. Inversely, the repeats can also be brightened up with the tone control for more pronounced rhythmic delays. The Analog Chorus Engine allows you to manipulate the depth and rate of the chorus effect applied to your trails; creating a deep soundscape of ambient modulation. Set the time and repeat controls low to get that classic western slap back sound or drag them out to achieve shoegaze perfection. Take it all the way to 10 to achieve a self-oscillating delay.

Four tap division options are offered to control the rhythm of your repeats: quarter notes, eighth notes, dotted eighth notes, and triplets. Expression control options are offered to swing either the time or repeat controls back-and-forth. Manipulate the time control to get that Johnny Greenwood oscillation or use it on the fly to manipulate the repeat control; adding long tails to your diamonds.

00251346 ..... MSRP/MAP $349.00

Descent

Reverb/Octave Machine Pedal

Walrus Audio

The Descent was designed to create ambient textures of sound, from thick and endless hall reverbs to symphonic shimmers. The Descent is a three mode reverb system; hall, reverse, and shimmer. In each mode, the user has the ability to feed +1 and -1 octaves into the reverberated signal. The Hall mode will feature a classic reverb sound that can move your signal from a small-room-echo to a haunting long hall- echo. The Reverse mode smoothly flips your signal to playback unique responses and can be manipulated with pre-delay time controls. Shimmer mode highlights the octave features, dry signal, -1, and +1 to mix in your signal and creates a symphony of sound.

The Descent offers you eight controls to precisely hone in your perfect reverb. In addition, the user can use an auxiliary momentary switch in the fav input to switch the pedal on/off and/or save presets. If you have an already crowded pedal board, you can set your Descent at the back of the board and run a small SPST switch to the front of the board so you don't lose valuable real estate. The Fav input requires a TRS cable to be used. The expression pedal control works with most on-the-shelf expression pedals. This feature allows the user to set the high and low parameters of each control and then fade in and out the those controls by moving your foot up or down on the expression pedal.

00251350 ..... MSRP/MAP $299.00

Fathom

Multi-Function Reverb Guitar Pedal

Walrus Audio

The long-awaited Fathom Multi-Function Reverb is ready to surface. Easily go from tasteful, small room reverb to long, modulated trails dripping of ambient goodness. Players will find the Fathom a very useful tool in a small footprint under $200. The Fathom features 4 different algorithms. Hall, Plate, Lo-fi and Sonar, wich gives a tip of the hat to its older brother, the Descent with a blendable shimmer/octave. Each algorithm can be modified with the "X" knob changing predelay, filter width or mix low and high octaves, respectively. A three way toggle also offers very tasteful amounts of modulation to your trails.

Features include:

- Four unique reverb algorithms (hall, plate, lo-fi, sonar)
- Three levels of modulation
- Dampen knob to suppress high frequencies
- X knob adjusts algorithm specific parameters
- Full wet/dry mix
- Sustain switch momentarily increases the reverb time to near infinite
- Trails and no trails mode
- Smart bypass switching
- Top mounted power and I/O jacks

00260544 ..... $199.99

MODULATION/OCTAVE PEDALS

Julia

Chorus/Vibrato Pedal

Walrus Audio

The Julia is a fully analog, feature-rich chorus/vibrato packed with a wide array of tonal landscapes begging to be explored. She is able to produce mild smooth chorus, to seasick vibrato and everywhere in between. With controls like Lag, Dry-Chorus-Vibrato Blend, and selectable analog LFO wave shapes, you are able to dial in all types of classic and unique chorus/vibrato sounds; some settings giving a familiar feel while others are not found on traditional chorus pedals.

A special feature of the Julia is the Lag control. The Lag knob lets you set the center delay time that the LFO effect modulates from. From smooth and tight modulation at lower settings, to warbling detune at maximum, the Lag knob adds a new dimension to the traditional Chorus/Vibrato landscape.

00251353 ..... MSRP/MAP $199.00

Luminary

Quad Octave Generator Pedal

Walrus Audio

The Luminary is a powerful polyphonic quad octave generator with features for creating inspiring symphonic gusts of sound. Operating on the Analog Devices Sharc platform, the Luminary gives you the ability to dial in any combination of four separate octaves including -2, -1, +1, and +2, the user can craft many different complex sounds and textures with crystal clear and immediate octave tracking. The Luminary has three onboard presets available for saving your go-to sounds, as a well as live mode. This means the user can have up to four custom sounds available at any moment. Get epic steel sounds with the modulation control unengaged. You'll find more experimental options with the filter control or a swirling chorus with the flutter control. Couple the Luminary with an expression pedal to expand its creativity even more.

00251355 ..... MSRP/MAP $319.00

Monument

Harmonic Tap Tremolo Pedal

Walrus Audio

Inspired by the beautifully jagged, red-sand desert landscape of Monument Valley, the Monument Tremolo is both a harmonic, and standard tremolo that produces a rich, luscious, warm pulsating modulation capable of peaks and valleys as smooth or as jagged as the real ones that our dear mother nature created long ago.

With different combinations of the rate, division and shape knobs and tap tempo, everything from traditional tremolo to inspiring unique waveforms will help you carve new paths that you won't hear anywhere else.

Harken back to vintage tones inspired by Fender Brownface amps in Harmonic mode. A low-pass and high-pass version of your guitar signal are modulated opposite each other, or 180' out of phase (high and low frequencies rise and fall opposite of each other.) The result is a warm, almost "chewy" tremolo.

A special feature on the Monument is the bypass switch also has a momentary function. When the switch is in off position, press and hold to temporarily activate the effect to add a moment of texture. Releasing the switch turns the effect off.

00251357 ..... MSRP/MAP $249.00

Vanguard Dual Phase

Series Phaser Pedal

Walrus Audio

The Vanguard was designed to create evolving beds of sound; from thick and sweeping harmonics to symphonic tidal waves. It operates as a series phaser system – two phasers working together to give unimaginable texture. The user has three selectable modes to shape the series phaser, sending your signal through a single 10-stage phaser with the option to pass through a second phaser. The second phaser, found on the second row of rotary controls, offers three different phaser voicings at the flip of a toggle switch; 10-stage with regeneration, 4-stage with pitch bend, and 6-stage with filter. This generates anything from slow phased foothills to untamed and violent sweeps.

00251363 ..... MSRP/MAP $279.00

BYPASS SWITCHER

Transit 5

True Bypass Switcher

Walrus Audio

The Transit is a True Bypass Looper system useful for organizing your pedalboard and giving your pedals the benefit of True Bypass. The Transit can also be used to create a Signal Loop, which may contain any number of pedals all activated by a single switch. These pedals are effectively True Bypass as well.

The Deluxe Transit Clickless True Bypass Switcher contains the same abilities as the Standard Transit Looper, however, it features a clickless switching system that provides an unprecedented amount of silence when turning on and off the channels.

00251362 ..... MSRP/MAP $205.00

Phoenix

15-Output Power Supply (120V-230V)

Walrus Audio

The Phoenix Clean Power Supply is a 15-output isolated power supply, utilizing two internal custom wound toroidal transformers to provide the highest noise filtering and cleanest power, giving artists the purest sound in their signal chain possible. With its 230V transformers, this version can be used in Europe, Australia, and the United Kingdom.

00251358 .....MSRP/MAP $279.00

POWER SUPPLY BOXES

Aetos

8-Output Power Supply (120V-230V)

Walrus Audio

The Walrus Audio Aetos is an 8-output, isolated power supply, utilizing an internal custom wound toroidal transformer to provide the highest noise filtering and cleanest power, giving artists the purest sound in their signal chain. The Aetos is housed in a solid die cast enclosure and is 4.7" long by 3.7" wide x 2" height and has 8 total 9VDC outputs, 6 are 100mA and 2 outputs are high current outputs (300mA) for higher current drawing pedals like line 6 DL series modelers, the Boss Twin Series Pedals and many digital modulation pedals on the market. It comes with a detachable 120V AC Power cord and also has a 120VAC complimentary power output. This unit comes with 8 - 2.1mm barrel black power cables and 2 black-to-red (Line 6) power cables. Fits under most pedal boards including Pedaltrain (PT JR and up), Pedal Pad, Blackbird Boards, Creation Music Company, and Holeyboards.

ARTIST SERIES WAH PEDALS

DJ Ashba Skeleton Wah
Morley Pedals

Features include:
- Switchless design – simply step on to engage Wah mode and step off to go to bypass
- Internal Wah Level trim-pot so you can customize your Wah level
- Wah tone and sweep set to DJ's preferred settings
- Electro-optical design (no pots!)
- "TrueTone Bypass" buffer circuit ensures pure guitar tone and maintains signal level in bypass and Wah mode
- Entire pedal glows-in the-dark using Morley's patent-pending glow in the dark process

00242655 Model SKW1 ..... MSRP/MAP $145.00

Cliff Burton Fuzz Box
Morley Pedals

Features include:
- Fuzz Circuit from Power Fuzz Wah in stand-alone stomp box
- Fuzz Intensity, Level and newly added Tone control
- Modern and Vintage Fuzz modes now foot-selectable

00242653 Model MCF..... MSRP/MAP $120.00

George Lynch Dragon 2
Morley Pedals

Features include:
- Switchless design – simply step on to engage WAH mode and step off to go to bypass
- Three foot-selectable Wah modes: Traditional Wah, Wow and Wah Lock
- Wow mode is a unique vocal Wah tone that is great for throaty lead work
- Level knob alters wah output in any wah mode
- Wah Lock switch electronically locks pedal into wah mode – the Notch knob allows you to dial in the wah tone "position"
- "TrueTone Bypass" buffer circuit ensures pure tone and maintains signal in all modes

00242654 Model GLW2..... MSRP/MAP $162.00

Mark Tremonti Wah
Morley Pedals

Features include:
- Switchless design – simply step on to engage Wah mode and step off to go to bypass
- Boost knob adds up to a full 20 dB of Wah gain that cuts through the mix
- The Wah tone is a perfect hybrid of traditional and modern Wah voicing
- Electro-optical design (no pots!)
- "TrueTone Bypass" buffer circuit ensures pure guitar tone and maintains signal level in bypass and Wah mode
- Diamond Plate style footpad for no-slip Wah-Wah action

00242656 Model MARK 1 ..... MSRP/MAP $139.00

Steve Vai Bad Horsie 2 Contour Wah
Morley Pedals

Features include:
- Two foot-selectable Wah modes; Bad Horsie and CONTOUR Wah
- In CONTOUR mode, two knobs allow you to alter the frequency and level of the Wah
- Switchless design – simply step on to engage Wah mode and step off to go to bypass
- "TrueTone Bypass" buffer circuit ensures pure guitar tone and maintains signal level in bypass and Wah mode

00242648 Model VAI-2 ..... MSRP/MAP $145.00

Steve Vai Little Alligator Volume
Morley Pedals

Features include:
- Morley's Electro-Optical circuitry ensures noise free, dependable operation
- Consistently smooth linear taper is set to Steve's painstaking specifications
- Designed for use in effects loop (send & return) or in front amp input
- Minimum Volume knob is used for a smooth transition between rhythm and lead volumes

00242650 Model PLA..... MSRP/MAP $93.00

MORLEY®

TRIBUTE SERIES WAH PEDALS

Cliff Burton Power Fuzz Wah

Features include:
- Tribute version of the '70s Morley Power Fuzz Wah used by original Metallica Bassist Cliff Burton
- Combination Classic Wah and fuzz pedal (Use Wah or fuzz independently or together)
- Vintage voiced Wah with Level control
- Fuzz equipped with Fuzz Level, Intensity and Vintage/ Modern switch

00242652 Model PFW.....MSRP/MAP $166.00

Cliff Burton Power Fuzz Wah (Chrome)

Features include:
- Mirror Finished Chrome version of the Power Fuzz Wah
- Combination Classic Wah and fuzz pedal (Use Wah or fuzz independently or together)
- Vintage voiced Wah with Level control
- Fuzz equipped with Fuzz Level, Intensity and Vintage/ Modern switch from one 9V battery or optional Morley adapter
- Limited Edition and some available with Ray Burton Autograph

00242651 Model PFW-C ..... MSRP/MAP $225.00

DISTORTION PEDALS

Dual Boost Distortion

Features include:
- Classic Analog Distortion with Drive, Level and Tone control
- Separate switch to kick in 15dB of boost when in distortion mode
- Third switch to kick in clean boost at anytime (up to additional 20dB)
- Variable boost knob

00242730 Model MDB2 .....MSRP/MAP $130.00

Pro Series II Distortion

Wah/Volume Combination Pedal

Features include:
- Combo Wah, Volume and Distortion all in one handy pedal
- Equipped with our improved "High Q" Wah: Wider sweep with more lows and highs
- Is also an optical Volume pedal when Wah is bypassed
- Distortion works independently of Wah and Volume
- Distortion has Drive, Level and Tone controls
- Electro-optical circuitry (no pots to wear out!)
- "TrueTone Bypass" buffer circuit ensures pure tone and maintains signal in bypass & effect modes

00242658 Model PDW-II .....MSRP/MAP $136.00

COMBINER PEDALS

ABC

Selector Combiner

Morley Pedals

Features include:
- Route one guitar to three amplifiers – select or combine amplifiers in any combination
- Route three guitars to one amplifier – select any guitar with a click of a footswitch

00242735 Model ABC .....MSRP/MAP $99.00

ABY Mix

Combiner

Morley Pedals

Features include:
- Route two input signals to two output sources
- Each input has an independent LEVEL control for best mix of both inputs
- Footswitches let you select or combine outputs as needed
- Unit is active and buffered

00242737 Model ABY Mix ..... MSRP/ MAP $87.00

ABY

Selector Combiner

Morley Pedals

Features include:
- Route one signal to two outputs or two inputs to one output
- Choose A, B or A & B combined
- LEDs show you which signal is active
- Unit is passive and true bypass and will work without battery (One 9-volt battery is required for LED indication only)

00242739 Model ABY.....MSRP/MAP $62.00

MINI PEDALS

Perfect for pedalboards at 6.75" L x 4.5" W x 2.75" H

Maverick Mini Switchless Wah

Morley Pedals

Features include:
- Electro-optical wah
- Switchless on/off operation
- Hybrid Vintage/Modern Wah tone
- Custom HQ2 Inductor
- "TrueTone Bypass" buffered circuit for no signal loading

00242726 Model MSW
.....MSRP/MAP $107.00

Mini Maverick Switchless Wah Pedal

Model MTSW

Morley Pedals

Features include:
- Electro-Optical Wah
- Switchless on/off operation
- Hybrid Vintage/Modern Wah tone
- Custom MQ2 Inductor
- "TrueTone" Bypass buffered circuit for no signal loading
- Glow in the Dark Treadle Rubber and Toe-End Logo

00260553.....MSRP $260.00
.....MAP $130.00

Mini Power Wah Volume Pedal

Model MTWV

Morley Pedals

Features include:
- Combination Vintage Wah and Optical Volume pedal
- Electro-Optical Wah and Volume Circuitry (no pots to wear out!)
- Wah equipped with our new MQ2 Inductor
- "TrueTone" bypass ensures pure tone and maintains signal in Volume and Wah mode
- Glow in the Dark Treadle Rubber and Toe-End Logo
- Wah Level Control, cold-rolled steel housing, LED indication, quick clip battery door and one-year warranty
- Works with Guitar, Bass or Keys!

00260552.....MSRP $248.00
.....MAP $124.00

Mini Volume

Morley Pedals

Features include:
- Optical Volume in size perfect for pedalboards
- Studio quiet audio taper

00242729 Model MMV
.....MSRP/MAP $75.00

See Recordings & Live Sound catalo for complete selection of hum eliminating products.

MORLEY®

SKYLINE SERIES STOMP BOXES

Guitar Effects Distortion Pedals

Hotone

Features include:

- True Bypass Footswitch
- Zinc Alloy Outer Cover
- Transparent top knob and 2 noctilucent small knobs
- Cool LED lights
- Dimensions: 74mm (D) x 44mm (W) x 44mm (H)
- Weight: 190 g

BLUES Overdrive Stomp Box

The Hotone BLUES overdrive stomp box is a distortion pedal with a full range frequency response that gives you the necessary crunch and power that makes this emotional style of music so compelling to play. Use the FAT button for that extra low end for when you need to lay it all on the line. Distinguished from the conventional overdrive circuit design, BLUES uses a two-stage overdrive circuit, reproducing the natural overdrive sound from a vintage vacuum tube amplifier. It maintains a perfect frequency response, distinct tone, remarkable dynamic expression, and rich detail. Current Consumption: 20 mA

00138389 ..... MSRP $109.99
..... MAP $79.99

CAB Analog Cabinet Simulator

Hotone

Offering all-analog cabinet simulation for creating modern metal tones, the CAB is perfect for any player that wants convenience without sacrificing tone. It simulates three distinct guitar cabinet configurations and includes a 3-position cabinet model selector switch (112/212/412). The CAB features low and high EQ controls for shaping low end and presence and the main light-up knob adjusts overall volume.

00200665 ..... MSRP $134.99
..... MAP $89.99

CHOIR Analog Chorus Stomp Box

The Hotone CHOIR stomp box is an analog chorus pedal. It offers a sound that is pure, warm and lush. Onboard controls let you adjust the depth and speed of your effect. Use the DEEP button to extend the ambience and drama of your tone. Inspired by the legendary Jazz-Chorus amplifier, the circuit is based around the BBD MN3207. This design has a singular purpose: to create the most natural, purest and warmest chorus sound in a secret little box. In addition, the DEEP button can satisfy those guitar players in pursuit of a greater chorus depth. Current Consumption: 14 mA

00138396 ..... MSRP $109.99
..... MAP $79.99

CHUNK Distortion Stomp Box (Vingtage Crunch)

Compact Vintage Crunch Pedal

The Hotone CHUNK stomp box is all about helping you achieve that vintage British Tone that has endured the test of time. This pedal will give you that classic crunch, while still remaining smooth and clear. As you dial up the gain you will feel as if are adding more and more cabinets to your vintage stack. Chunk is your little friend with that big British sound. Based on the legendary British amplifier, the specially optimized classic Crunch circuit has 4 diodes which were selected from thousands of models. This pedal will take you through time from the 70s to 90s and even hover in punk, hard rock, and heavy metal. The high gain tone never affects string resolution when strumming and does away with that annoying background noise, so that the "noise" you make is the kind you want to hear. Current Consumption: 18 mA

00138393 ..... MSRP $109.99
..... MAP $79.99

HOTONE

DJENT Modern Hi Gain Distortion Pedal

Hotone

Hotone's Skyline Series Stompboxes are the perfect match for any guitarist that wants convenience without sacrificing tone. The DJENT is a rock-solid hi gain distortion pedal for creating modern metal tones. It features a 3-position sound character selector switch and Force and Saber parameter controls for shaping volume and tone. The main light-up knob adjusts gain intensity.

00200670 ..... MSRP $134.99
..... MAP $89.99

EKO Digital/Analog Delay

The Hotone EKO pedal is a digital delay stomp box with a direct analog signal path that achieves that classic, natural echo tone. The sound is pure, rich, and warm, and you can press the MOD button to get a deeper spacey feeling. Maximum delay time is approximately 500ms. Pure, warm, and natural echo tone – an excellent ambience maker. Digital Delay Line assures enough delay time and a pure signal path. Elaborate analog circuit makes the sound closer to a classic echo tone. Additional MOD push-button gives you even more space! Current Consumption: Max 60 mA

00138391 ..... MSRP $109.99
..... MAP $79.99

EQ-V

Graphic Equalizer

Hotone

EQ-V is an essential equalizer stompbox for guitarists/bassists. It offers five bands of EQ ranging from 80Hz to 5kHz, giving you complete control over your sound and eliminating unwanted feedback, especially when connected after a distortion effect. Furthermore, you can also use the EQ-V as a booster for a multi-dimensional, expanded sound.

00174534 ..... MSRP $134.99
..... MAP $89.99

FAT Buffer

Preamp Effects Pedal

Hotone

Many musicians are bothered by signal loss when their pedal chains get too long. Plug your guitar into the FAT preamp, then out to your pedal chain, and everything will be right again. Kick the pedal on for a clean boost. When the boost is on, use the low and high knobs to shape your tone. The boost knob gives you up to 26dB of extra volume. The cut button enables a low cut filter (cuts the 200Hz frequency).

00174531 ..... MSRP $109.99
..... MAP $79.99

FURY Stomp Box (Fuzz Pedal)

The Hotone FURY stomp box is a fuzz pedal that provides that classic rock n roll fuzz that can only be described as beautifully nasty. Use the PUSH button for an extra boost to make your fuzz even dirtier. The Fury is downright rude for such a little box. Classic fuzz tone with a powerful low end, it gives a clear and strong attack. Very nice on bass. Sounds from smooth creamy fuzzy drive to hyper dynamic fuzz distortion, the PUSH button adds a special "Squeeze" feeling that makes the sound more unique. Current Consumption: 3 mA

00138394 ..... MSRP $109.99
..... MAP $79.99

GATE Stomp Box

Noise Reduction

Hotone

GATE is a true-bypass designed noise reduction stompbox for guitarists/bassists. No matter what kind of style you are playing, this tiny pedal will effectively keep noise and hum away from your pedalboard without changing your own tone. The CUT button enables a more harder noise reduction mode, which provides a low cut filter and a high cut filter adjustable by the two small knobs onboard.

00154729 ..... MSRP $134.99
..... MAP $89.99

GOLDEN TOUCH Stomp Box

Overdrive Stompbox

Hotone

The Hotone GOLDEN TOUCH is an overdrive stompbox for guitarists. It recreates the classic, iconic overdriven sound of a tube amp: warm, natural, sweet sound character with great dynamic response. Every detail of your playing comes through! Push the WARM button to get a warmer, cream-like overdriven tone with more gain.

00191867 ..... MSRP $134.99
..... MAP $89.99

GRASS Overdrive Stomp Box

The Hotone GRASS Overdrive Stomp box will give your guitar an artistic overdrive sound. Featuring great dynamic response, the Grass pedal will provide you with sounds ranging from a tasty light overdrive to a juicy medium low distortion. Grass is perfect for capturing a brilliant tone that players of all styles will wish to emulate. Based on the sound of the legendary DUMBLE amplifiers, here is an iconic retro overdrive tone, warm, smooth, and vital, with great sounding details and a wide range of dynamic response. Current Consumption: 9 mA

00138397 ..... MSRP $109.99
..... MAP $79.99

HARMONY Stomp Box

Pitch Shifter/Harmonist Guitar Effects Pedal

Hotone

The Hotone HARMONY pedal introduces a gorgeous backup singer to richen up your guitar solo or riff expression. Boasting a wide range of pitch-shifting intervals, you'll find all kinds of room whether you're going up, down or are just looking for a little detune. Harmony's pitch range is totally versatile, and with its polyphonic precision, you can play a chord and make the chorus come out, or sound like an organ or a 12-string!

00154730 ..... MSRP $154.99
..... MAP $99.99

KOMP Opto Compressor

The Hotone KOMP stomp box is an optical compressor that provides a smooth compressed tone, while maximizing the punch of your notes. You will feel as if every sound from your amp was mastered in the studio. Use the SPARK button to insert more high end into your sound. Inspired by the legendary Urei LA2A photoelectric compressor, our circuit has been optimized according to the characteristics of the electric guitar and performs outstandingly over the spectrum of different playing styles. The compressed tone is round and smooth, full of musicality, and perfectly retains the original guitar tone. Current Consumption: 19 mA

00138392 ..... MSRP $109.99
..... MAP $79.99

KRUSH

Bitcrusher/Sample Rate Reducer

Hotone

KRUSH is a compact-sized bitcrusher/sample rate reducer stompbox. The pedal features a variable, flexible and sweet-sounding digital downsampler with 3 different modes: radio simulator, neutral mode, and vintage phonograph simulator. Each mode downgrades the original signal in a very musical fashion.

00174533 ..... MSRP $149.99
..... MAP $99.99

LIFTUP Clean Boost Stomp Box

The Hotone LIFTUP Clean Boost stomp box is the perfect way to raise your volume while maintaining the original sound of your guitar. Use the TONE control to shape your ideal clean boost, and try the WARM function button to further construct your own VOLUME UP solution. This pedal was designed with two principles in mind: "Keep the signal super clean," and "Lots of tone shaping capability." It can volume up the signal without any distortion: the secret weapon of getting a transparent tone with great dynamic expression. Current Consumption: 17 mA

00138390 ..... MSRP $109.99
..... MAP $79.99

LUSH Flanger Guitar Pedal

Hotone

Any guitarist who wants convenience without sacrificing tone will be a perfect match for this pedal. The LUSH recreates a rich, natural studio flanging effect. The Regen and Width parameter controls adjust effect intensity, and the push-style Dive button handles negative feedback flanging mode. The main light-up knob adjusts effect speed.

00200669 ..... MSRP $134.99
..... MAP $89.99

OCTA Digital Octave Stompbox

Octa is a digital octave stompbox for both guitarists and bassists. Two octave voices blend with dry level control and support polyphonic processing in the default mode, so playing a chord is absolutely no problem. And there is an additional DIRTY mode which simulates the classic analog octave pedals (single note processing and a different tone). Current Consumption: 53 mA

00138403 ..... MSRP $109.99
..... MAP $79.99

PHAZE Analog Phaser

Guitar Effects Pedal

Hotone

This pedal is the perfect match for any guitarist that wants convenience without sacrificing tone. The PHAZE creates subtle to extreme phasing textures, with Reso and Depth parameter controls to adjust effect intensity. The push style Shine button adds bright shimmering tone, and the main light-up knob adjusts effect rate.

00200668 ..... MSRP $134.99
..... MAP $89.99

Q-BOX Envelope Filter

Hotone

The Q-Box is a finely tuned digital envelope filter stompbox which delivers a wide range of autowah and dynamic wah effects. It features 3 modes: Touch wah mode with high pass filter, Touch wah mode with low pass filter, Autowah mode with low pass filter. And with the onboard range, Q and speed knobs, Q-Box can dish up all kinds of tasty Q sounds!

00174532 ..... MSRP $149.99
..... MAP $99.99

ROTO Pedal

Hotone

Hotone's ROTO Modeling Rotary Speaker stompbox is a fresh-vibe pedal that reaches into the soul of every man, woman and child. Just like the original box, you can switch between tremolo and chorale mode. The sleek rotations and subtle pitch variations will take you places you never knew could be so smooth... or so funky.

00148933 ..... MSRP $135.00
..... MAP $89.99

SOUL PRESS Guitar Pedal

Hotone

Hotone's all-new Soul Press 3-in-1 Volume/Expression/Wah-Wah pedal offers the convenience of each of these pedals in a single design. Inspired by the legendary CryBaby wah pedal, the Soul Press produces premium wah-wah effects. In addition, guitar volume and expression pedal modes are available with the flip of a switch.

00148932 ..... MSRP $150.00
..... MAP $99.99

TAPE EKO Stomp Box

Modeling Tape Delay

Hotone

The TAPE EKO is a smart echo pedal that embodies the soul of the classic tape echo sound. It provides three delay modes: Mode I, Mode II, and reverse mode. Mode I gives you all the advantages of a digital delay. Mode II differs from Mode I in terms of dynamics. The reverse mode shares the characteristics of Mode I: warm and natural while maintaining clarity.

00154732 ..... MSRP $154.99
..... MAP $99.99

TREM Optical Tremolo Pedal

The Hotone Skyline Series TREM optical tremolo pedal will deliver pulsating guitar tone. Whether it is surf you are after or something a little scarier, TREM will give you the lush, liquid waves you're looking for. The classic tone of photoelectric tremolo, with wide range adjustability and smooth, well-proportioned pulsing character. Inspired by the legendary Fender Twin Amp, our special circuit design ensures the consistency of output volume at different speeds. Additional EQ circuit offers more options for sound decoration. Current Consumption: 17 mA

00138395 ..... MSRP $109.99
..... MAP $79.99

TUNER Pedal

This is a smart tiny tuner with the Skyline shape, with fast pitch detection technology and a big bright LED display – a real guarantee for your strings! In addition, it provides a VOLUME knob to control the output volume when active (from mute to 12dB volume boost). You can also use it as a mute box or a clean boost pedal. Current Consumption: Max 65 mA

00138402 ..... MSRP $109.99
..... MAP $79.99

VERB Stomp Box (Digital Reverb)

The Hotone VERB stomp box is a digital reverb pedal. From the subtle echoes of a small room to the grand ambiance of a large hall, Verb will throw back a natural sound. Onboard controls let you select the decay time and shape the response of your high end. Use the SHIM button to add a decorated shimmer that will give your tone a beautiful and modified character. Current Consumption: 20 mA

00138404 ..... MSRP $109.99
..... MAP $79.99

WALLY Mini Loop Station

Wally is a mini loop station which can record up to 15 minutes of loop phrases in one storable memory. It also has separate input/output level controls and a tempo variation function. Current Consumption: 37 mA

00138399 .....MSRP $124.99
..... MAP $89.99

WHIP

Metal Distortion Stomp Box

Hotone

The Hotone WHIP Metal Distortion Stomp box offers an aggressive and heavy tone that is sought after by all who wish to preach the attitude of Metal. This pedal may be small, but it will provide your guitar with a tone that is large, dirty and downright mean. Shredders will appreciate the EDGE button that provides an additional boost on the top end. Heavy metal distortion with unique mid range tone shaping, this pedal suits various metal styles. The EDGE button offers a more aggressive tone with a high frequency boost. Current Consumption: 22 mA

00138398 ..... MSRP $109.99
..... MAP $79.99

WOOD Stomp Box

Acoustic Guitar Simulator

Hotone

If you are tired of carrying an acoustic guitar along to the stage or studio, the compact WOOD pedal is for you. Its wide adjustable range is enough to turn an ordinary electric guitar tone into a variety of natural, realistic acoustic tones. The 3-way toggle switch lets you choose from J (Jumbo), D (Dreadnought) and P (Piezo) simulation modes; the BODY knob and the TOP knob can further shape your tone.

00154731 ..... MSRP $134.99
..... MAP $89.99

Ravo MP10

Multieffects Pedal

Hotone

Hotone RAVO is a multi-effects processor and USB audio interface. This tiny, light-weight pedal has all the functions you need – 130 effects in 8 useful modules, 100 amazing presets, a built-in drum machine with 100 patterns, 30 seconds of recordable looping, and a high quality USB audio interface. Plus, it comes with a free, user-friendly software – RAVO Tonebank – for editing and sharing your own tone. Ravo will be your best live performance and recording tool.

00172085 ..... MSRP $224.99
.....MAP $149.99

Vow Press

Switchable Volume/Wah Pedal

Hotone

The Hotone Vow Press is a 3-in-1 pedal in a smart compact size. This unit features wah, volume, and vol/wah modes. The wah mode is for all the cry babies out there – we're talking about the legit vocal sweep and lush harmonics of the wah's classic era. The vow/wah mode offers a volume pedal, then a wah pedal, then back again! This mode combines volume control and vintage wah tone in one, and they can be changed instantly with a simple press.

00174536 ..... MSRP $149.99
..... MAP $99.99

Bass Press

Volume/Expression/Wah-Wah Pedal

Hotone

The Hotone Bass Press is a 3-in-1 compact pedal designed for bass players. This unit features wah, volume, and expression modes. The wah mode is specially optimized for bass frequencies, featuring wild, strong, clear sound character without affecting your bottom end. If musicians the world over agree on one thing, it is their common hatred of the "volume sucking" quality of passive volume pedals. Bass Press' volume mode is an active volume design, which keeps your tone pristine. Fine tune the bottom end with the volume range control.

00174535 ..... MSRP $149.99
..... MAP $99.99

Xtomp Guitar Pedal

Hotone

XTOMP is an ultrathin effects pedal stompbox that simulates all kinds of iconic classic, vintage, and modern pedals through its growing effects library of over 300 models. XTOMP uses iOS and Android app to manage all your effects and transfers them to your stompbox via Bluetooth Smart. This powerful pedal lets you get creative by giving you access to both modern, cutting edge units and rare, out of production pedals of lore.

00172083 .....MSRP $389.99 • MAP $279.99

XTOMP Mini

Multi-Effects Guitar Pedal

Hotone

XTOMP mini is the lean, mean core of the all-powerful XTOMP effects pedal. Like XTOMP, it simulates all kids of iconic classic, vintage and modern amps/cabs/pedals and creates original standard/novel algorithms through its growing effects library.

00244299.....MSRP $249.00 • MAP $149.99

Cybery

Loop Switcher

Hotone

Meet your cyber matrix controller. Cybery is a compact but versatile pedal manager that helps you keep everything in order. Fourtrue bypass loops guarantee a pristine signal, programmable MIDI lends you massive control, and a free mobile app sets you freefrom complex and annoying hardware programming.

Features include:

- Compact size, rock solid aluminum casing
- 4 independent relay-based True Bypass audio loops

- Low switching noise
- 9V DC power supply

00257822 .....MSRP $324.99 • MAP $199.99

Skyboard Junior

Pedal Board Designed for Skyline Series Stompboxes

Hotone

The Skyboard Junior fits up to 5 Skyline pedals and includes: a tough, aluminum alloy pedal board • expandable carrying case with gear pocket • velcro strip.

00172084 ..... MSRP $104.99 • MAP $69.99

(See complete list of Hotone accessories on page 52)

Patch Kommander

4-Channel Programmable Loop Switcher

Hotone

Patch Kommander is a light-weight, programmable loop switcher that keeps your pedals and effects in order. Four true-bypassloops guarantee a pristine signal, a built-in input buffer saves your highs and harmonics, and an ultra-intuitive control panel setsyou free from complex, annoying patch programming.

Features include:

- Compact size, rock solid aluminum casing
- 4 independent relay-based True Bypass audio loops
- Switchable high quality input buffer for preventing high frequency loss
- Mute/Tuner function with independent tuner output
- SW A/B function for amp channel switching
- 2 switching modes (Direct mode for instant access; Preset mode with 12 programmable presets for different combinations)
- Low switching noise
- 9VDC power supply

00257821 .....MSRP $199.99 • MAP $124.99

HOTONE

ABOUT F-PEDALS

F-Pedals is a new boutique pedal company founded by Francesco Sondelli. The products are designed in Los Angeles, manufactured in Napoli, Italy and assembled, tested, and packaged in Studio City, California.

Part of the F-Pedals selection is The Eddie Kramer Line. Kramer, the legendary music producer and audio engineer has recorded some of the most influential artists in the history of rock, including Jimi Hendrix, Led Zeppelin, The Beatles, The Rolling Stones, Kiss and many more. Eddie teamed up with F-Pedals to help create a new line of pedals that have truly captured the best of Eddie's works from the Golden Age of Rock all the way to the contemporary ones.

F-Pedal mission is to "inspire musicians to continue making great music by adding more colors to their creative palette, and to expand their soundscape through advanced technologies, researches and creative designs. We proudly consider ourselves a vintage and progressive minded team who believes in respecting and learning from the wisdoms of the past while thriving to contribute to the future of music."

F-PEDALS

F-PEDALS

PhazeVibe
Eddie Kramer Series
F-Pedals

PhazeVibe takes you to amazing unexplored soundscapes. It's a Phaser, a Hendrix Uni-vibe, a Wah-Wah Vibe and a Leslie, and it's none of them at the same time – because it is so unique, it's an F-Pedal.

00201972 ..... MSRP/MAP $139.00

Edstortion
Eddie Kramer Series
F-Pedals

Edstortion is a phenomenal pedal with an attitude to rock. With three easily selectable different distortion technologies built in, designed in collaboration with legendary producer Eddie Kramer, Edstortion allows you to achieve an incredibly wide spectrum of tones from heavy compressed distortion to very subtle crunch with great dynamic. Don't get fooled by the size – it sounds HUGE!

00201973 ..... MSRP/MAP $129.00

RobotHolic™
F-Pedals

RobotHolic™ is a retro vision of the future. It is a powerful analog mini stompbox that brings you a colorful range of sounds from clean booster, crunchy drive, heavy distortion to analog-ring-mod-resembling effect.It is the first mini pedal in the market that has an input for External Expression Control,which allows you to create some extremely cool effects by changing the modulation rate with your foot while playing. The featured mini lo-fi (High Pass Filter) switch emulates an old AM speaker, taking your sound experiment to an even crazier horizon. Meet RobotHolic, the crazy retro robot in a box.

00201974 ..... MSRP/MAP $119.00

Darklight
F-Pedals

A distortion pedal with and unparalleled flexibility, it will illuminate the path to the darkest part of your creative vision. Versatile, loud and insanely powerful with an incredible range of sounds and possibilities. The limit to your self expression is the brightest sky... or the darkest hell!

00201975 ..... MSRP/MAP $119.00

Echobandit™ Gold

F-Pedals

A pedal with a lot of bloody analog personality. It features SPEED, MIX, TAPE and FEEDBACK controls to allow you to precisely "steer" your echo delay effect and experience a wide range of sounds from awesome classics slap back to experimental modern.

00201976 ..... MSRP/MAP $109.00

Echobandit™ Silver

F-Pedals

A darker version of Echobandit™ Delay Pedal, more vintage vibe and amazingly warm tone.

00201977 ..... MSRP/MAP $109.00

Lorion

F-Pedals

Lorion is one if the two Neon Brothers. It is a semi-driven boost, that will bring out the best tones out of your amp. Use it at low gain for a clean boost or max it up for a nice crunchy bluesy sound. It works amazing on its own or combined with any other F-Pedals.

00201978 ..... MSRP/MAP $99.00

Matterix

F-Pedals

One of the two Neon Brothers. Matterix is a boost that can also be used as an overdrive of your amp.

00201979 ..... MSRP/MAP $99.00

Yurei

F-Pedals

Transparent like a ghost, Yurei will make your guitar sound sharp and cut through with the same precision of a samurai sword. A Samurai Ghost. Yurei is an amazingly useful discrete tool, a Buffer/Clean Boost, a Ghostbooster.

00201980 ..... MSRP/MAP $99.00

Tremelon

F-Pedals

Tremelon is a Dual Tremolo pedal that has two completely independent classic sounding tremolo engines. The control panel is divided in two sections: "Turbo" and "Slowmo." Each engine has its own tempo range and the BPM info will be provided when R&D is officially closed. Both in Turbo and Slowmo operation the user can control individually the volume, depth and speed. By keeping the volume of one of the tremolo engines at 0, the Tremelon will work as a single classic Tremolo. When combining the two engines together the user creates a unique pattern never heard before in such a compact unit.

00214955 ..... MSRP/MAP $109.00

Damn10

Italian Distortion Pedal

F-Pedals

Damn10 is The king of any stadium, a champion of all time, a leader and a hero. It will make any crowd beg for more with its organic, warm and rogue tone. It is the starting point to build any desired impressive rock sound. It comes with a level (volume), roar (distortion) and bite (tone) controls, to help you morph the most desirable tone. Look no further, if you are looking to craft your own iconic signature sound. Inspired by a legendary football (soccer) player, can you guess who he is?

00248539 .....MSRP/MAP $119.00

PunQmonk

Envelope Filter

F-Pedals

A classic dynamic envelope filter featuring two frequencies range modes (OM - HUM), a potentiometer with built in LED light to show the on/off status of the pedal and to set the filter response to the dynamic of the user's performance. Additionally there is a connection to plug in an optional (sold separately) FXP™ F-Pedals external expression foot control pedal to manage the filter sensitivity by foot that can generate some really cool and unique kind of wha-wha effects. It is inspired by and dedicated to Flea, bass player of the legendary band Red Hot Chili Peppers. PunQmonk is suitable for guitar, bass or anything else you can connect to it.

00248538 ..... MSRP/MAP $139.00

Nikaos

British Distortion Pedal

F-Pedals

An incredibly dynamic distortion pedal designed for brother in arms and super talented Greek producer Nikolas Farmakalidis. For howling solo lines, growling power chords, soulful screaming blues or crunchy riffs, Nikaos was conceived for players who are looking for a powerful and very manageable distortion sound. Very immediate and intuitive with a Volume (Growl) and Tone (Roar) controls. The distortion is managed by the guitar volume knob. Nikaos Eyes are sensitive to your playing and they will intensify as you increase the dynamic or volume on your favorite instrument adding a touch of tube feeling to your tone. Use it to bring powerful analog energy when recording on your favorite digital station, enjoy it live when rocking with your band, or experiment your own vision unleashing the beast inside of Nikaos.

00248541 .....MSRP/MAP $119.00

SynthFonia

F-Pedals

A classic vintage fuzz and auto retro synthesizer envelope filter combined gave birth to the SynthFonia. The goddess of music. The universal muse. Featuring a TONE control to fine tune a more classic or a blasting fuzz sound. A LEVEL control to set the general output volume and a mini toggle switch to engage a more extreme sounding SynthFuzz.

00248540 .....MSRP/MAP $119.00

POD SERIES

Pocket POD®

Legendary POD® Tone To-Go

Line 6

Pocket POD® exhibits all the celebrated features and pro tone that makes POD a standard in recording studios everywhere. Don't be fooled by the smaller package, Pocket POD is packed with over 300 custom presets dialed in by some of today's hottest rock stars like Maroon 5, P.O.D., 311, Hoobastank and many more. Battery-powered and about the size of a tuner, Pocket POD is completely portable. Use it for effects in front of your amp, or just plug in headphones and practice anywhere, anytime.

00122093 ..... MSRP $179.99 • MAP $129.99

POD® HD500X

Line 6

The POD® HD500 represents a giant leap forward for amp modeling processors. It is the only floor multi-effect to boast 25 state-of-the-art Line 6 HD amp models, 25 HD preamp-only models, 17 cabs, 8 mics, 100+ modern and vintage-styled M-class effects, and a collection of digital and analog ins and outs essential to every performance scenario. Plus, it's totally flexible for you to route and tweak to your heart's content with speed and ease.

DL4

Delay Guitar Effects Pedal

Line 6

The Line 6 DL4 Delay Stompbox Modeler is the first stompbox to give you digitally modeled effects. Includes 16 vintage delay and echo effects including Tube Echoplex, Space Echo, Deluxe Memory Man, Analog Delay, Reverse, and many more. It also provides for 3 programmable presets and an onboard Tap Tempo control, 14 seconds of sample-loop memory, true bypass switching, an expression-pedal input for real-time control of all effects settings, and stereo inputs and outputs. Runs for up to 30 hours on four "C" batteries or with the optional PX-2G power adaptor. Add the optional EX-1™ Expression Pedal to your Line 6 gear to modify the length of your delay time as you play.

00122094 .....MSRP $349.99 • MAP $249.99

Helix LT

Line 6

The Helix™ LT guitar processor features the same advanced HX Modeling technology found in Helix Floor and Helix Rack. With a streamlined I/O complement and hardware configuration, Helix LT delivers the highest levels of performance, flexibility and control in its class. The award-winning HX Modeling engine leverages powerful dual-DSP performance to capture and recreate amps, cabs, mics and effects with authenticity and responsiveness. A large LCD display and touch-sensitive footswitches with color LED rings enable easy usage and fast, smart control. The generous I/O complement, with extensive routing capabilities, makes it easy to integrate Helix LT into an existing rig and provides flexibility for a wide range of stage and studio applications. Helix LT has preset compatibility with existing Helix products and offers Variax® control integration. With Helix LT, the world's most powerful guitar processor is now more accessible than ever before.

This product is currently only available to pre-qualified dealers. Call your Hal Leonard sales rep for details.

00233656 .....MSRP/MAP $999.99

HX Effects

Line 6

HX Effects features 100+ effects taken from the award-winning Helix hardware and software processors, all in a compact, pedalboard-friendly format, and up to nine effects can be run simultaneously. In addition, legacy effects from the acclaimed Line 6 M-Series and Stompbox Modeler pedals are also included. Effortlessly edit effects using the eight capacitive-sensing footswitches, six scribble strip LCDs, and color-coded LED rings. Simply touch a footswitch with your finger to instantly jump to any effect, quickly adjust a parameter, or assign controllers. HXEffects also offers a choice of true analog bypass or DSP bypass with trails, and an industry-leading 123dB of dynamic range delivers tremendous depth and ultra-low noise. Extensive routing and control options provide flexibility in the studio or on stage, and facilitate easy integration with traditional pedalboards and amps.

Features include:

- 100+ HX effects for your pedalboard – run up to 9 simultaneously
- Additional legacy effects library from M13, M9, M5, DL4, MM4, FM4, DM4 and Verbzilla
- Capacitive-sensing switches with LED rings and scribble strips
- Can act as the command center for your entire amp and pedal rig

00265195 .....MSRP/MAP $599.99

JM4 Looper Effects Pedal

Line 6

JM4 Looper features over 100 Endless Jam™ tracks and drum grooves in more than 10 styles performed by top LA and Nashville session players. These tracks aren't rigid and robotic; these are actual recordings laid down by A-list drummers, bass players, and guitarists. The real-world chemistry from these dynamic rhythm sections is here for you to explore your creativity in writing songs, trying out solo ideas or just honing your chops between gigs.

00123035 ..... MSRP $459.99 • MAP $329.99

M5

Stompbox Modeler

Line 6

Supercharge your pedal board with a single stompbox! M5® is like the Swiss Army Knife of stomp boxes, with over 100 gain-defying distortions, lush choruses, scintillating reverbs and many other expressive effects. This single box has the entire pro effects lineup, including all Line 6 "super stomps" like the DL4™. With a price point that's lower than one good single effect pedal, it's infinitely customizable. Dedicate one space on your pedal board to be whatever effect you need in the moment. Add an optional expression pedal to open up a world of sonic possibilities. This goes way beyond wah and pitch. Control delay time, mod speed, reverb tails, wet/dry mixes – or all of them at the same time – for every effect.

00122096 ..... MSRP $279.99 • MAP $129.99

M9

Stompbox Modeler

Line 6

M9 Stompbox Modeler has the stunning stompbox tones, old-school simplicity and necessary portability you need in an all-in-one stompbox solution. It packs 100+ models from best-selling Line 6 gear (including DL4™ Delay Modeler, FM4™ Filter Modeler, MM4™ Modulation Modeler, Verbzilla® & more) into a tank-tough box. Tweak your tones on the fly, just like a classic stompbox – no menus, saving or hassles. The 28-second looper is easy to use with dedicated footswitches, and the built-in chromatic tuner is always at the ready.

00122095 ..... MSRP $559.99 • MAP $399.99

M13

Stompbox Modeler Guitar Multi-Effects Pedal

Line 6

M13 Stompbox Modeler boasts over 100 immortal distortions, reverbs, delays, and more. Get 19 celebrated analog and digital delays, 18 distinctive distortions from creamy to crazy, 12 reverbs from modern (particle verb) to vintage (spring reverb) to ancient (cave reverb), 26 vibey filters including wahs and pitch effects, 22 tangy mods including expressive trems and phasers, and 12 compressors and EQs that squash, gate and color. The 28-second looper is always at the ready with dedicated footswitches for Play/Stop, Undo/Redo, Rec/Overdub, Half Speed, Reverse, Play Once, and Pre/Post.

Aura® Spectrum DI

Fishman

Aura Spectrum DI is the complete tone solution for the acoustic musician featuring award-winning Aura Acoustic Imaging technology that restores a studio-miked sound to your undersaddle or soundhole pickup. Housed in a professional quality all-metal case, Aura Spectrum DI features a 3-band EQ, one-knob compressor, automatic feedback suppression with up to 3 notches, chromatic tuner, effects loop, plus a high-quality balanced XLR D.I. The included Aura Image Gallery software provides access to an ever-expanding list of instruments recorded using world-class studio mics and techniques. Aura Spectrum DI is not only incredibly versatile, but it also delivers the most realistic acoustic sound available for stage or studio.

00125700 ..... MSRP $558.38 • MAP $362.95

Pitchblack Mini

Pedal Tuner

Korg

Korg's Pitchblack pedal tuners have earned the trust of guitarists and bassists worldwide for their quality, design and durability. The Pitchblack mini is the latest addition to the renowned tuner series, now available in a smaller, sleek size. The Pitchblack mini appears smaller in size, yet embodies all of its superior tuner functionality. Featuring a large LED display with excellent visibility, it supports battery operation in spite of its compact size. The unit is also equipped with stabilizers to prevent it from overturning. Small but powerful, this is a high-quality pedal tuner that will meet the needs of any player.

00220838 ..... MSRP/MAP $69.99

Vox Classic Wah Pedal

VOX

Based on the specifications of the original pedal developed by VOX in the '60s, the V845 Wah-Wah offers guitarists the same legendary Wah-Wah tone in a new sturdy but very affordable design. An AC power connector is fitted to save on batteries and the outer case is coated with tough all-black finish making it the perfect choice for your pedal board.

00220847 ..... MSRP $99.99 • MAP $69.99

HeadRush Pedalboard

Multi-Effects

HeadRush

Featuring a finely-tuned quad-core processor and powered by exclusive Eleven® HD Expanded™ DSP software, the HeadRush Pedalboard™ delivers the most versatile, realistic-sounding and responsive amplifier, cabinet, microphone and FX models ever found in a road-ready floorboard guitar FX processor. The 7-inch touch display enables you to touch, swipe and drag-and-drop to instantly create and edit your rigs in an unprecedentedly realistic and intuitive way.

Plus, it features gapless preset changes with reverb and delay tail spillover, a built-in looper with 20 minutes of record time, the ability to load custom impulse response files and exclusive original boutique effects that can't be found anywhere else. Whether you're looking for a classic warm vintage amp with natural tube drive, wide ambient stereo delay textures with infinite feedback or the heaviest of heavy djent tone, the HeadRush Pedalboard covers it all and everything between.

Features include:

- Gapless preset switching with reverb/delay tail spillover
- Record and re-amp via USB
- Hands-free edit mode
- 18" (3.5mm) aux input
- Custom-designed quad-core DSP system
- Integrate your FX and out-board gear
- 1/4" (6.35mm) headphone output
- Individual footswitch OLED screens
- Road-ready steel chassis
- MIDI input and output
- Looper with 20 minutes of record time
- Universal power supply

Gig Bag

HeadRush

This light-weight gig bag will keep your HeadRush Pedalboard and other accessories safe and secure while traveling to wherever your next gig takes you.

Features include:

- Light-weight nylon design with 1/2" foam padding
- Durable re-enforced handle; adjustable shoulder strap
- Storage pockets for cables, picks, and other accessories

00259445 ..... MSRP $199.00 • MAP $99.00

Voluum

Volume Pedal and a Whole Lot More

Sonuus

Voluum is a volume-based multi-effect stomp box with a digitally controlled high-fidelity pure-analogue signal chain. Constant high-voltage (>30V) analogue power rails ensure high-headroom with low distortion and low noise for maximum signal clarity. A high-bandwidth fully-analogue signal path ensures there is no digital distortion to corrupt your signal, and allows high dynamic range signals to be processed flawlessly. Digital control gives you the ability to store presets and remotely-control the effects via MIDI.

The effects chain comprises five effects (noise gate, compressor, LFO (tremolo), volume control and limiter) which can be used in any combination.

The Voluum is also the world's first volume pedal to have a built-in precision chromatic tuner.

00255624 ..... MSRP $349.99 • MAP $299.99

Wahoo

Analog Multi Effects Pedal for Guitar and Bass

Sonuus

The Wahoo combines two beautiful-sounding analogue filters with digital control giving you full access to a sonic pallette previously only available to skilled analogue circuit designers. With one pedal you have an English wah sound, and American wah sound, and everything in between. You can even program the frequency response of the heel and the toe position. It's a phaser, envelope filter, a pitch-bend triggered wah, step filter, overdrive and much more. You can even choose any vowel sounds. Forget about using hidden pots and jumpers to adjust your analogue sound. With the Wahoo you can instantly adapt the analogue circuit's response to create the sound and feel you desire. And with 100 factory presets and 100 user presets, you always have the sound you need at your fingertips.

00255622 ..... MSRP $349.99 • MAP $299.99

FBV Express MkII

4-Button Foot Controller

Line 6

Get hands-free channel switching and more for your Line 6 amp and POD® with the FBV Express™ MkII foot controller! The steel foot switches make it easy to store and select four channel presets, to synchronize time-based effects with Tap Tempo, and to activate the chromatic tuner. The burly, full-sized volume/wah pedal feels solid under your foot and features plenty of grip. FBV Express MkII connects to your Line 6 amp or POD via the included locking RJ-45 cable. It pairs perfectly with Spider® IV and Spider Valve™ MkII guitar amplifiers to offer complete, hands-free control of the looper, pitch-shifter and other on-board amplifier effects. FBV Express MkII is compatible with most Line 6 amplifiers and POD processors.

00122079 .....MSRP $139.99 • MAP $99.99

FBV 3

Advanced Foot Controller for Line 6 Amps

Line 6

FBV™ 3 is an advanced foot controller that gives you complete control over Firehawk™ 1500, AMPLIFi®, Spider®, and other Line 6 amps and effects. Five FX footswitches with assignable color LEDs plus six single color footswitches help you easily keep track of your amps and effects at a glance. Steel hardware and rugged metal casing mean FBV 3 can withstand some serious punishment on stage. And a single cable connects your amp for power and communication, keeping your setup clean and simple. Unleash the full potential of your Line 6 gear with FBV 3.

00156360 ..... MSRP $349.99 • MAP $249.99

Auto-Tune for Guitar Floor Pedal

Model ATG-1

Antares

With the ATG-1 Auto Tune for Guitar Floor Pedal, the push of a button allows you to instantly tune your guitar all the way up the neck, access your favorite alternate tunings, pop on a virtual capo and select among pre-set guitar models (including acoustic and 12-string). The easy to use ATG-1 also includes standard gain and tone functions, an LCD readout, and accepts MIDI control inputs. Guitars that feature Roland® standard 13-pin outputs can plug directly into the floor pedal, while others require a hex pickup like the Roland GK-3 or equivalent. Perfect for saving time in the studio and rugged enough to handle the road, the ATG-1 is the perfect device for harnessing your creative energy.

00144047 ..... MSRP $899.00 • MAP $699.00

FOOT PEDALS FOR MOBILE DEVICES

iRig BlueBoard

Bluetooth MIDI Pedal Board

IK Multimedia

iRig BlueBoard is the first wireless MIDI pedalboard for iOS and Mac that allows you to control your music apps and more from the floor.

Now control parameters of your MIDI-compatible apps like AmpliTube wirelessly from the floor. Switch between presets, change patches, turn effects on and off and control effects like volume wah pedals all from the stage floor without worrying about tripping over wires. Setup is as simple as turning the iRig BlueBoard on and telling it what you want to control.

iRig BlueBoard features four backlit soft-touch pads housed in a sturdy, stage-worthy chassis, two TRS expansion jacks for connecting additional MIDI controllers like expression pedals, and is powered by four standard AAA batteries.

00119919 .....MSRP/MAP $99.99

IK Multimedia. Musicians First.

The Quad

4-Pedal Wireless Page Turner

AirTurn

Turn pages, navigatee setlists, transpose keys, toggle backing tracks, trigger metronomes, and even control guitar/bass/amp effects. This AirTurn QUAD 4-pedal board comes with the AirTurn Bluetooth transceiver, 4 ATFS-2 black silent pedals that connect to the transceiver, the AirTurn non-slip pedal board, and a USB recharging cable. The Bluetooth transceiver may be easily removed for use with other applications.

The transceiver features an internal lithium battery that can be used for up to 100 hours on standby. It connects wirelessly to your tablet or MAC/PC computer via Bluetooth and may be easily. The ATFS-2 black pedals are constructed of nearly indestructible polycarbonate plastic and feature a proprietary "mechanism-free" switch system for perfectly silent operation.

00142937 .....MSRP/MAP $149.00

Relay G10

Plug-and-Play Digital Guitar Wireless System

Line 6

Relay® G10 is the world's easiest guitar wireless system. Just plug in your instrument and it works automatically – no additional setup required. You'll hear your tone in amazing detail thanks to pure 24-bit Relay digital wireless sound quality – the same technology that top pros use on stage. The built-in rechargeable battery provides up to 8 hours of playing time, and sleep mode extends battery life to as much as 200 hours. When it's time to recharge, simply plug the transmitter into the receiver. Relay G10 features a simple and intuitive design that makes going wirelessly as easy as using a cable.

00156361 ..... MSRP $249.99 • MAP $179.99

Relay G10T Transmitter

for Spider V 60, 120, and 240 Guitar Amps

Line 6

The Relay G10T is designed to work as the stand alone wireless transmitter accessory for Spider V 60, 120, and 240. Relay G10T is also compatible with the Relay G10 Receiver for a complete guitar and amp wireless system.

00195755 ..... MSRP $139.99 • MAP $99.99

Relay G10T Lanyard Kit (Not for Resale)

Line 6

Utilize an optimal way to demo Spider V wireless ready amps with this wearable Relay G10T lanyard for store associates. It features up to a 50' range using wireless ready Spider V. Plugging into the amp sets the channel and recharges the battery. With up to 8 hours of continual use, and up to 200 hours per charge sleep mode, just charge about every two weeks! The modified Relay G10 comes with a ring attachment, lanyard, and a POP laminate.

00233045 ..... $30.00

Relay™ G30 Wireless Guitar System

Line 6

Relay™ G30 redefines the wireless experience for guitarists and bassists. Its superior sound, professional dependability and refreshing simplicity are simply unavailable from other wireless systems. Its pure signal clarity rivals that of the highest-quality guitar cables. Guitars get a beautiful high-end sparkle and basses get a thunderous low-end punch, even at distances of up to 30 meters. Unlike traditional wireless systems, Relay G30 offers superior sound with full bandwidth and zero compression. Relay G30 sounds just like a cable, but it also sounds just like your cable. Relay G30 features two EQ settings that match the frequency responses of typical guitar cables. Different players use different cables, but all players can use Relay G30. It broadcasts its robust signal over the 2.4GHz band. This keeps the signal free from many kinds of interference. For added security, Relay G30 employs exclusive signal protection technology: it broadcasts an encrypted data stream on six channels simultaneously. This easy-to-use transmitter is lightweight and low-profile. Bright LEDs display power, status and battery life. Standard 1/4-inch ins and outs deliver real convenience.

Relay G55

Digital Guitar Wireless System

Line 6

Based on patented, fourth-generation technology, Relay® is leading the digital wireless revolution for guitarists. The Relay G55 system delivers tour-grade digital wireless in a compact, half-rack format-so you can experience wireless freedom without compromising your tone. Featuring 12 channels of compander-free 24-bit audio, full 10Hz-20kHz frequency response and 117dB dynamic range, the G55 signal is so pure and strong it sounds just like a wired guitar. 2.4GHz operation and proprietary DCL™ signal protection provide rock-solid performance – while one-step setup and worldwide, license-free operation make Relay G55 incredibly easy to use.

Features:

- Patented, 4th-generation digital wireless technology
- All-metal, half-rack receievr designed for rack-mount or amp-top use, plus durable metal bodypack
- Full-range 24-bit digital conversion, 10H-20kHz (-2.5dB) frequency response
- Wide 117dB dynamic range (A weighted), superior transient response
- Operates in 2.4GHz band, free from interference from TV broadcasting, white space devices and cell phone towers
- Up to 12 simultaneous channels
- DCL™ (Digital Channel Lock) technology protects your signal
- 300-foot transmission range
- License-free operation worldwide
- Cable Tone simulates the high-frequency roll-off characteristics of a standard 25-foot cable
- XLR and 1/4" outputs
- Powered half-wavelength antennas

Relay G70/G75

Wireless Guitar Systems

Line 6

Proven on stages worldwide, Line 6 digital wireless technology delivers industry-leading audio specs and the lowest-available latency. Relay G70 and G75 build on that legacy to offer next-generation performance, unmatched sound quality and unprecedented flexibility for guitarists. Plug right into the locking 1/4" input on the transmitter – no special cables required. Easily add additional transmitters and instantly switch between instruments, complete with programmable presets for signal routing, levels and more. Featuring rugged metal construction and 8+ hours of battery life (with 50+ hours of standby time), Relay provides tried-and-true performance from stage to studio.

Line 6

00143021 ..... MSRP $699.99 • MAP $499.99

Relay G90 Wireless Guitar System

Line 6

Relay G90 provides a pure signal with 12 channels. Its clarity rivals that of the highest-quality guitar cables. Guitars get a beautiful high-end sparkle and basses get a thunderous low-end punch, even at distances of up to 300 feet. Traditional wireless systems compromise their sound by rolling-off crucial high- and low-end frequencies and compressing their signals. Relay G90 offers superior sound with full bandwidth and zero compression.

00001594 ..... MSRP $838.99 • MAP $599.99

Relay G90-RX

14-channel 1RU Receiver Separate

Line 6

Included as part of Relay G90. Easy-to-read LCD screen displays transmitter name, battery life data, active channel number and antenna signal strength. Bright LEDs indicate audio status and more. Rugged metal construction. Features include: rackmount kit • pair of BNC 50-ohm terminator caps • pair of 2.4GHz rubber antennas (Half Wavelength Antenna Pair) • RF channel scan and RF performance monitoring • A/B transmitter switching • rugged metal construction. Can be used with V75-HHTX, V70-HHTX, V55-HHTX, V35-HHTX, V30-HHTX, V75-BP, V70-BP, V55-BP, V35-BP, V30-BP, Relay G90, G50, and G30 bodypack transmitters

Concert 99 Guitar

Frequency-Agile UHF Wireless System

Samson Audio

Samson's Concert 99 Guitar combines 80 channels of high-definition audio and extreme reliability into a rugged all-metal, rack-mountable chassis with a stage-ready backlit display. With simple 1-touch setup, convenient monitoring, a 300' UHF operating range and impressive transmitter battery life, this frequency-agile system offers unprecedented value to guitarists, bassists and other stringed instrumentalists in search of reliable wireless freedom.

In both single and multi-system arrangements, the CR99 Wireless Receiver offers 80 total operating channels, selecting the best frequency option for your area. Quick to setup, the CR99's Group scan helps avoid conflicting frequencies, while its IR sync function allows users to wirelessly match the transmitter to the receiver's operating frequency.

Ultra Light Guitar Capo
G7th

Weighing in at only 1/4 oz. (8g) the new UltraLight model packs next generation composite technology into a simple and elegant design to deliver fast, great-sounding capoing at G7th's lowest price yet. UltraLight is a genuinely pro-level capo at a price that's within easy reach of younger players of the acoustic and electric steel string guitar, classical guitars and ukuleles. Its unique click, twist and play action for fast, buzz-free capoing makes it easy to use. Key design features help retain the true tone of your instrument and keep you in tune, without getting in the way of your fretting hand. The new UltraLight capo is developed from an original design by Anders Sterner with his kind encouragement and comes complete with lifetime warranty.

CASES

Guitar Maintenance Table

Grundorft

The GMT-003™ guitar maintenance table accommodates both electric guitars and acoustic guitars. Separate compartments are installed to keep tools, strings and supplies handy! It folds in half to secure your supplies during transport. The GMT-003™ comes equipped with non-marring plastic corners, surface mounted padlockable latches, a sturdy plastic handle, and finished in a black carpet finish.

00156363 .....MSRP $139.95 • MAP $109.95

Guitar Stand Case

Grundorf

The Grundorf G-GSC™ Guitar Stand Case is compact and easy to transport! Each case holds up to six guitars when open, yet is compact for transporting and storing. They provide a secure means to hold valuable instruments during performance or in the studio and take up less space than having multiple, collapsible, traditional guitar stands set up for each instrument.

The G-GSC Guitar Stand Case opens and assembles in seconds! The lid of the case becomes the back of the stand. The stand insert latches to the back to provide stability. The stand insert offers durable construction to prevent bowing and is covered with plush fabric to protect the finish of the guitars. When assembled open, this case measures 24" high. It features a vintage black vinyl finish and includes leather straps with snaps to hold each instrument safely in place. Five padded, adjustable spacers are included to customize the case to fit acoustic or electric guitars/basses. The thick, plush interior protects the finish of the guitars.

CABLES

Tourtek Instrument Cables
Samson Audio

Tourtek Cables have been designed for musicians and sound engineers who require superior sound quality and demand ultimate reliability. The cables exceed the design goal by combining quality components like genuine Neutrik® connectors and durable low-noise wire with solid build construction.

Tourtek Instrument Cables feature inner stranded copper conductors covered by a PVC insulator, which is wrapped in a second carbon insulator, then wrapped in a braided copper shield with 96% coverage. This is protected by a 6mm PVC outer jacket. The low capacitance cable provides excellent rejection of RFI/EMI interference, extremely low handling noise and superior sound quality. These instrument cables are available in a variety of lengths to ensure you have the appropriate cable for any application and can be purchased with one right angle connector as well. Standard instrument cable available in 1', 3', 6', 10', 15', 20', 25', 30', 50'. Instrument cable with one right angle connector available in 3', 10', 20' and 25'.

COMBO BASS AMPS

HD SERIES BASS COMBOS

Hartke

The HD Series Bass Combos pack Hartke's revolutionary HyDrive speaker design into a sleek combo design ideal for bedroom practice/jam sessions and small rehearsal spaces, and capable of greatly enriching your low-end tone. The HDs also maintain Hartke's commitment to producing high quality bass amplification with exceptional durability.

HD combo employs Hartke's patented HyDrive Speaker Technology that offers a carefully crafted hybrid (half paper, half aluminum) cone bass speaker. By combining the warmth and roundness of paper with the punch and attack of aluminum, the HyDrive design produces serious tone that is ideal for bass players of all genres and styles.

Packed with professional features, HD combos are designed to be user-friendly and reliable for players of all levels. The combo offers Volume, Bass, Mid and Treble controls on its top-mounted amplifier panel, allowing for easy adjustments. It also features an 1/8" stereo Aux input for playing along with your favorite tracks via an MP3 player and a 1/4" headphone output for more intimate practice sessions. In addition, HDs have a built-in limiter to ensure constant amp operation at safe levels. Lastly, its solid enclosure is finished in a stylish fashion with a sleek, perforated metal grill and molded strap carry handle.

With the exceptional tone of a HyDrive speaker housed in a durable, highly portable enclosure, Hartke's HD Bass Combos are able to perform at levels far beyond ordinary bass combos.

Hartke HD15 Bass Combo Amp

Hartke®

HYDRIVE HD SERIES BASS CABINETS

Hartke

Revitalizing the revolutionary HyDrive design, Hartke's HyDrive HD Series Bass Cabinets are the next step in speaker evolution. An improved version of Hartke's patented paper/aluminum HyDrive Speaker Technology delivers unmatched tone depth and clarity, while rugged, yet lightweight plywood construction and huge power handling solidifies these cabinets as the right choice for modern demanding bass players.

HyDrive speakers feature carefully crafted paper/aluminum hybrid cone drivers. The hybrid makeup delivers an exceptional blend of warmth and attack that can't be attained by traditional all-paper bass speakers. The outside curved Kevlar®-loaded paper cone delivers smooth, even response with a deep tone, while the inner straight anodized aluminum cone produces highly accurate, distortion-free output.

The HyDrive HD cabinets provide depth and clarity that is unrivaled. The new double-roll curvilinear surround limits the drivers from over excursion, while providing a smooth midband response. The result is a clean, full tone with the clear fundamentals of each note, as well as natural overtones to further define your sound.

New optimized ferrite magnet assembly and steel chassis design deliver a maximum power to weight ratio to each of these HyDrive HD cabinets. In addition, the enclosures themselves are constructed from high-quality plywood with extensive bracing and dado joints, making them rigid, yet lightweight for superior projection and true sonic clarity. Their black perforated steel grilles add to their already strong, sleek look.

Features of all HyDrive Series Cabinets include:

- Black perforated steel grille
- 1" HF driver with 3-position level control
- Constructed of plywood, extensive bracing and dado joinery
- 2x Twist & Lock inputs, 2x 1/4" (wired in parallel)

XL SERIES BASS CABINETS

Hartke

Professionals choose the XL Series because of its carefully calibrated and tuned cabinet design and high quality aluminum-cone drivers. XLs produce a smooth response along with the clear, punchy attack that changed the sound of bass. Each cabinet is built tough with a shockproof metal grill, reinforced corners, recessed carry handles and a rugged covering.

115XL

This tuned, duct-vented XL cabinet and 15" low-bass driver add more bottom to your sound. Power handling is 300 watts at 8 ohms with an expanded frequency response of 30Hz-2.5kHz.

00140619 ..... MSRP $459.99 • MAP $349.99

210XL

Expanded Hartke sound for smaller venues. A single chamber, sealed cabinet with two 10" aluminum-cone bass drivers. Power handling is 200 watts at 8 ohms with a frequency response of 50 Hz to 5 kHz.

00140173 2 x 10" AL / 200 watts / 8 ohms
.....MSRP $329.99 • MAP $249.99

410XL

The 410XL features a twin chamber, dual-ported design. Housed in the cab are four 10-inch proprietary low frequency drivers that employ large voice coils, impregnated fabric surrounds and convex dust covers, all mounted in a heavy-duty steel frame. And with 400 watts of available power handling and a frequency response of 30 Hz to 5 kHz, this cabinet ensures professional performance and remarkable tone for any style of playing. Additionally, a recessed jack plate and ergonomic metal handles make transporting this cab no sweat. With strength to endure and tone to amaze, the 410XL ensures a performance that will make mouths drop.

00140172 4 x 10" Aluminum / 400 watts / 8 ohms, Dual Chamber
.....MSRP $524.99 • MAP $399.99

ACOUSTIC GUITAR AMP

ACR5

Acoustic Guitar Amplifier

Hartke

Hartke's ACR5 is a lightweight 50-watt acoustic guitar amplifier that projects the natural sound of your instrument, while providing versatility for practice and performance. Featuring a 6.5" woofer and 1" tweeter, the ACR5's dual-channel design offers a 3-band EQ on each channel, feedback control, and reverb/chorus effects for both guitar and vocals. Powered by an efficient 50-watt amplifier, the ACR5 is ideal for open mic nights at small venues.

00174543 .....MSRP $329.99 • MAP $249.99

BASS AMPS

HA2500 Bass Amplifier

250 watt Bass Head, Tube and Solid State Emulation preamp, Bass and Treble contour, 10 band Graphic

Hartke

With 250 watts of available power, the HA2500 will drive your small to mid-sized bass rig with incredible clarity and punch. In addition, the HA2500 offers a number of advanced features, including front panel compression and ten bands of graphic equalization, allowing you to create a broad range tonal colors. A dedicated in/out button even allows you to preset an equalization curve. Two fully adjustable contour knobs (high pass and low pass) also provide further control for shaping your bass sound.Effects send and return jacks let you connect to professional outboard effects processors and an effect balance knob enables you to adjust the relative amount of send ("dry") versus return ("wet") effect signal being routed to the speaker outputs. Protection relay circuitry also protects connected speakers from dangerous overloading and also prevents "thumps" when powering on or off. The Hartke silver-face chassis adds a clean, stylish aesthetic to any rig and rugged construction makes the HA2500 eminently roadworthy. Plus, with advanced preamp features, this amp is as ideal for studio work as it is for live performances. All this combined with exceptional reliability makes the HA2500 a staple amplifier for the contemporary bass industry.

00140168 ..... MSRP $324.99 • MAP $249.99

HA3500 Bass Amplifier

350 watt Bass Head, Tube and Solid State Emulation preamp, Bass and Treble contour, 10 band Graphic

Hartke

Found on stages all over the world, the Hartke 3500 bass amplifier is back in classic black. Yet, it retains all the same rock-solid performance and features as the original that have made it one of the most popular bass amplifiers of all time. The 3500's unique circuitry ensures that every nuance of your bass performance is faithfully reproduced. Featuring two Pre-Amp input knobs, allowing custom blending of tube and solid state tone, and ten-band graphic EQ, the 3500 is ideal for the player who wants plenty of power and control. But we don't stop there. A dedicated preset button allows you to set a equalization curve and two fully adjustable contour knobs provide even more shaping of your distinctive sound. A built-in compressor adds real "punch" to your bass sound, and also allows you to smooth out volume differences between notes.Rugged construction and professional features make the 3500 totally road-worthy. Two independent inputs accommodate both passive and active bass guitars. LEDs that show you the settings of the graphic equalizer in low-light environments as well as a two-color LED that continuously shows the status of the compression circuitry in response to your playing. Electronically balanced direct output provides routing signal to professional mixing consoles for both live performance and recording environments. A ground lift switch helps prevent hum or buzz from entering the signal, and a pre/post switch allows the direct signal to be derived either before or after the amp EQ section. With all the features you need for complete tonal control, along with ample power and rugged design, the 3500 will ensure complete bass euphoria no matter what kind of music you play.

00140169 .....MSRP $519.99 • MAP $399.99

LH1000 Bass Amplifier

Tube (12AX7) Preamp, Bass and Treble Shelving with peak Mid-Range 2x500 watt Bass Head

Hartke

The LH1000 has a classic 12AX7 Class-A tube front-end design with a solid-state output. Trick out the Treble and Bass Shelving to give its warm tone a little edge, or use the brite and limiter switches to further sculpt your sound. Its intuitive front panel design also makes adjustments on the fly a breeze. Although the LH1000 is a perfect complement to our HyDrive cabinets, it also works as a seamless accompaniment to any bass cab on the market.

Obviously a head with this kind of power is perfect for gigging musicians in any number of live applications, which is why we made sure the LH1000 is as durable as it is versatile and powerful. With a two-rackspace, metal frame chassis, steel faceplate and handles, this amp is made for the road. The LH1000's raw, reliable power is also perfect for additional shaping through your effects console or stomp box.

With all the necessary features for complete tonal control, along with ample power and rugged design, the LH1000 will ensure your bass playing receives the positive attention it deserves.

00140167 ..... MSRP $649.99 • MAP $499.99

TX600

Class D Bass Amplifier

Hartke

Hartke's lightweight TX600 is a 600-watt Class D bass amplifier that offers the legendary Hartke tube preamp circuitry in a highly portable design. Within a rugged, yet compact enclosure, the TX600 features an onboard compressor and unique tone stack EQ section that provides players of all styles with thorough control over their sound. Inspired by the countless hours spent by Hartke engineers listening to bass players of all genres, the TX600's tone stack EQ is a preset equalization curve tailored to bass guitar. The Shape and Frequency knobs provide detailed control of the midrange frequency voicing, while the Bass and Treble controls allow for further adjustments to create a tone that is your own.

00172587 .....MSRP $519.99 • MAP $399.99

LH500 Bass Amplifier

Tube (12AX7) Preamp, Bass and Treble Shelving with peak Mid-Range 500 watt Bass Head

Hartke

The LH500, like its big brother, has a classic 12AX7 Class-A tube front-end design with a solid-state output. Developed with the HyDrive cabs in mind, the LH500 also has more than enough power and tone control to drive any cabinet on the market. This amp provides you with Treble and Bass Shelving to give its warm tone a little edge. Or use the brite and limiter switches to further sculpt your sound.

00140166 ..... MSRP $454.99 • MAP $349.99

TX300

Class D Bass Amplifier

Hartke

Hartke's lightweight TX300 Bass Amplifier is the answer for bass players who need a compact amp that can meet the demands of any gig. Featuring 300 watts packed into an aluminum chassis weighing only five pounds, and a flexible preamp with Hartke's Shape circuit for dialing up any tone, the TX300 is a portable powerhouse.

The TX300's preamp offers a 3-band EQ with Hartke's Shape circuit, providing enormous control over tone shaping. A Drive knob allows you to add subtle warmth to your sound or crank it up to complete fuzz. The onboard variable compressor can be dialed-up to even out note volume, add punch to your sound and protect your speaker cabinet from the hardest of finger-popping techniques.

The Shape control is a contour filtering system designed to enhance the sound of bass instruments. When enabled, it continuously sweeps a filter through various frequencies to customize the effect of the curve for the specific tonal characteristics of bass instruments. This curve provides moderate boost at certain frequencies and deep attenuation at others.

Featuring an anodized aluminum chassis and weighing only five pounds, the TX300 is both rugged and ultra-portable. This Class D amplifier provides the tonal characteristics of traditional amps, minus the backbreaking weight. A balanced XLR direct output allows connection straight into a mixer, ideal for direct recording or performance venue setups. And with a headphone output and 18" (3.5mm) input for playing along with your tracks, the TX300 is equally at home in practice spaces as it is in studios or on the road.

00265485 .....MRSP $419.99 • MAP $299.99

Bass Attack 2

Bass Preamp/Direct Box with Overdrive

Hartke

Hartke's Bass Attack 2 combines the classic preamp circuitry of a professional direct box with the vast tone shaping capabilities of the industry's best stompboxes, all in a rugged, zinc die cast stompbox-style design. Its Overdrive circuit provides bass players with creative control over effects ranging from subtle tube emulation to grungy fuzz, while Hartke's Its Overdrive circuit provides bass players with creative control over effects ranging from subtle tube emulation to grungy fuzz, while Hartke's high-frequency growl. With a 1/4" parallel output for dry signals, 1/4" effect output for your amp, and balanced XLR direct output, the Bass Attack 2 provides flexible output options for FOH or studio recording consoles.

Features:

- Bass preamp and direct box with overdrive
- Shape EQ circuit with Frequency and Amount control
- Countour EQ switch
- Overdrive effect with Mix wet/dry control
- XLR direct output with Pre/Post and Ground Lift switches
- 1/4" parallel and effect outputs
- Powered via 9-volt battery, AC adapter (sold separately) or phantom power through XLR
- Rugged, zinc die cast stompbox-style design

HC33 Chorus

Analog Bass Chorus Pedal

Hartke

Hartke's HC33 Analog Bass Chorus Pedal features all-analog circuitry for adding lush, shimmering accents to your sound. From vibrant modulation to elegant swirls, the HC33 has you covered. A Depth knob lets you set the modulation sweep amount, while the Speed knob adjusts the rate of the chorus effect.

00174540 .....MSRP $119.99
..... MAP $79.99

HF44 Fuzz

Bazz Fuzz Pedal

Hartke

Hartke's HF44 Bass Fuzz Pedal features all-analog circuitry for the fat, punchy distortion heard in classic stompboxes. Its FET design delivers the high-voltage saturated sound of a tube, while Mid and Tone controls dial in the harmonic character and high-frequency edge needed to drive all your aggressive riffs.

Not everyone thinks of distortion as being "musical". This ends with the HF44. The pedal's ability to instantly add "body" and "thickness" to your tone with exceptional headroom is a testament to its all-analog design.

00174541 .....MSRP $119.99
..... MAP $79.99

FT50 Chromatic Tuner

Hartke

The Hartke FT50 Chromatic Tuner makes accurately tuning guitars, basses, and other stringed, woodwind and brass instruments an easy task. The FT50 offers two modes of tuning: Auto and Manual. When using Auto mode, the tuner automatically recognizes the note to be tuned, while Manual mode allows the user to select the note to be tuned. The FT50 also features a multi-segment LED display for tuning in well-lit or dark environments. It also utilizes a built-in microphone for calibrating acoustic instruments and its 1/4-inch input and output jacks allow for the tuning of electronic instruments in or out of live performance situations. Conserving the two included AAA batteries that power the tuner, the FT50 features a convenient auto-shut off function if it is not in use for 10 minutes. Lastly, a compact design makes Hartke's FT50 Chromatic Tuner an extremely portable accessory, perfect for storing in your instrument case, gig bag or back pocket.

00140185 .....$24.99

Hartke®

Hartke's Nx Premium Nickel Bass Guitar Strings provide Serious Tone® and enhanced playability for the modern bass player. Featuring a hexagonal steel core precisely wound with nickel-plated steel, these strings ensure extended life and consistent intonation. The Nx bass strings are engineered to deliver big fundamental frequencies, while reproducing the instrument's harmonics for balanced bass with a lot of punch.

Nickel-plated bass strings provide a clear, bright tone that is ideal for classic rock, folk and other genres where a crisp, round tone is needed. They offer a soft feel while providing extended life that is easy on your fingers, as well as your bass guitar's frets.

CARLO ROBELLI UKULELE

Soprano Ukulele

Model UK1P Ukulele Pack

Carlo Robelli

If you're interested in playing the Ukulele, the Carlo Robelli UK1 Ukulele Pack ofers everything you need to start strumming your favorite tunes. The pack includes a beautiful soprano sized ukulele along with a portable headstock tuner and convenient gig bag so you can keep your uke protected on the road to the beach. Soprano is the most popular Ukulele size available due to its ultra portable compact size and ability to generate lush bright tones. The UK1 is constructed of Sapele wood, which is known for its excellent natural and dynamic projection. The black walnut fingerboard helps notes and chords resonate as they would on professional instruments. Start playing your new ukulele immediately by using the included headstock style tuner to ensure your ukulele stays in premium playing condition. This hands free tuner is designed for rapid adjustments and can remain attached to your instrument at all times so you wont loose it. The padded gig bag allows you to take your ukulele to the park or jam session with confidence.

Features include:

- Soprano style Ukulele
- Sapele body
- Black Walnut Fingerboard
- Elegant Natural Wood Finish
- Includes Headstock Tuner and Gig Bag

Coda Pro

88-Key Digital Piano with Hammer-Action Keys

Alesis

Full-sized 88-key digital pianos that are ideal for a wide variety of performing and recording requirements. The Alesis Coda and Coda Pro are full-featured 88-key digital pianos that have the versatility and rich sound you're looking for. They're the perfect solution for any situation where a full-size keyboard is needed, but where portability and affordability are also important. They are ideal for piano students, stage and studio use, schools, theaters, and houses of worship. The full range of built-in features enables you to play any piece and sound great – from Beethoven to Dave Brubeck to Pharrell Williams to Psalm #17 on page 23. Designed with simplicity and ease of use in mind, the Coda Series is elegant and subtle, packed with elements that make it easy for you to be at your creative best.

Both the Coda and Coda Pro have 20 built-in piano voices (such as Grand Piano, Electric Piano, Drawbar Organ, etc.) from the leading music software companies AIR Music Technology and SONiVOX. Plus, they have the versatility to split or layer two voices simultaneously. With 50 piano accompaniment styles to choose from (such as Slow Rock, Vienna Waltz, Jazz Pub, etc.), you can select the perfect style for any solo performance situation.

PEDALS

FC3 Continuous Sustain Pedal

Yamaha

Most digital piano sustain pedals are 2-dimensional, on or off. When used with a compatible keyboard, FC3 is 3-dimensional, offering full-damper sustain, half-damper sustain, and everything in between. FC3 simulates the precise response of an acoustic piano's sustain pedal, which translates into realistic control, increased musicality, and overall enjoyable performance experience. Recommended for S90ES, P60, P70, P120, P140, P200, P250, CME Pro UF Series.

00701194 ..... $69.99

FC4 Piano Style Sustain Pedal

Yamaha

Add expression to your keyboard with the FC4 sustain pedal. Designed to perform like an acoustic piano's sustain pedal, the FC4 has become a necessity for all keyboards. Its solid construction and 6' cable will ensure that its quality lasts a lifetime.

00750144 ..... $59.99

FC5 Foot Switch Style Sustain Pedal

Yamaha

A compact version of the FC4, the FC5 performs similar to an acoustic piano's sustain pedal providing expression and feeling to any performance. The FC5 can also be used as a hands-free on/off switch for activating effects or even recording.

00750107 ..... $23.99

FC7 Volume Controller

Yamaha

The FC7 is a volume controller that allows you to adjust the volume and even the effects of your instrument. One of the most durable volume foot controllers available, the FC7 withstands the highest energy-driven performances. It can also be used to control one of the many effects parameters of the STOMP Series products. Complete with 5' cable and 1/4" phone plug.

00750145 ..... $69.95

YAMAHA®

ASP-2

Universal Piano-Style Sustain Pedal

Alesis

The Alesis ASP-2 is the perfect product for keyboard players who want the most realistic pedal action. Designed to work and feel just like an acoustic piano's sustain pedal, it has a specially-designed rubber bottom that grips the floor and won't move while you play. This classic-style pedal works with any Alesis digital piano, keyboard or MIDI controller and it also has a polarity switch for compatibility with virtually all other branded keyboards.

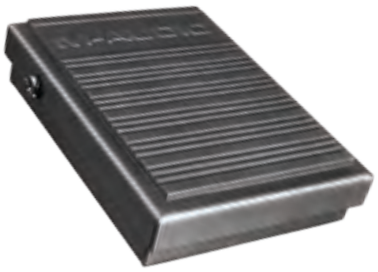
00256042 ..... MSRP $29.99 • MAP $19.00

ALESIS®

EX-P
Universal Expression
Controller Pedal
M-Audio

Feel the need to express yourself fully? The M-Audio®'s EX-P expression controller pedal works with all M-Audio MIDI controllers that have an expression pedal input. A built-in polarity switch insures compatibility with most other brands of controllers and keyboards. Use the EX-P to control any assignable variable MIDI controller value including volume, modulation, panning, filter sweep, and more. Durable molded construction with integral cable.

00633052 .....MSRP $29.95 • MAP $29.99



SP-1
Sustain Pedal
M-Audio

The M-Audio® SP-1 is a compact and sturdy simple sustain pedal for today's electronic keyboard. Perfect for any application that requires a non-latching momentary switch. Compatible with all electronic keyboards.

00633050 ..... MSRP $14.95 • MAP $14.99

SP-Dual
Double Keyboard Foot Pedal
M-Audio

The SP-Dual pedal from M-Audio performs all the standard soft and damping functions that your performance demands. Additionally, they add the versatility of 2 and 3 independent 1/4" output cables. This means you can use the SP-Dual with any keyboard that has sustain and/or foot controller 1/4" input jacks. The pedal is assignable to keyboard functions such as patch advance, sequencer stop/start and modulation effects – exactly as you require from a momentary foot controller.

00159645 .....MSRP/MAP $39.00

SP-Triple
Triple Keyboard Foot Pedal
M-Audio

The SP-Triple pedal from M-Audio performs all the standard soft, sostenuto, and damping functions that your performance demands. Additionally, they add the versatility of 2 and 3 independent 1/4" output cables. This means you can use the SP-Triple with any keyboard that has sustain and/or foot controller 1/4" input jacks. The pedal is assignable to keyboard functions such as patch advance, sequencer stop/start and modulation effects – exactly as you require from a momentary foot controller.

00159646 .....MSRP/MAP $69.00

BENCHES

Musician's Bench
LoDuca Bros Inc

This bench is ideal for use with keyboards and other musical instruments. The padded seat measures 12" x 17," and the cross brace and metal base provide strong support. It can adjust to three different heights of 18.5," 19.5," and 20.5." The bench folds up for easy carrying and storage.

Module Mount

Electronic Percussion Mounting Plate

Alesis

Mounting plate for electronic percussion modules. Just add a multiclamp for stands or a rack clamp for racks, and you can mount your ControlPad, PerformancePad, or TriggerIiO to any drum hardware. Integrate your electronics into your acoustic setup, or expand your electronic kit.

00153097 ..... $19.99

MultiPad Clamp

Universal Percussion Pad Mounting System

Alesis

The most versatile way to mount and position any multi-pad around you drum or percussion set up. Tired of setting up a separate stand for your multi-pad and then trying to get it to angle over your kit so you can reach it? Those days are over, thanks to the Alesis Multipad Clamp. The Alesis Multipad Clamp is a clamp and boom-arm assembly that attaches directly to any cymbal or rack-mount stand. With the 5.75" clamp and adjustable opening, the clamp attachment accommodates stands of any thickness. An infinitely variable ball-and-socket joint enables you to position your multi-pad at the perfect playing angle, and the flat pad mount fits Alesis and other multi-pads perfectly. With Alesis Multipad Clamp you have one less setup headache.

00265374 ..... MSRP $149.00 • MAP $79.00

SamplePad 4

4-Pad Percussion and Sample-Triggering Instrument

Alesis

The Alesis SamplePad 4 is an all-in-one percussion and sample-playing instrument. It comes equipped with four responsive, LED-illuminated rubber pads, dual zone trigger input, and ten preset kits. With a built-in library of the most commonly requested percussion and electronic drum sounds and the ability to load samples, the only limit is your imagination. For even more flexibility, you can tune and add reverb to your sounds. Intuitive navigation makes it easy to browse through your kits and you can drag and drop your samples via USB on a Mac or PC without removing your SD card. The bright blue LED lighting is clearly visible in every setting.

00160150 ..... MSRP $399.00 • MAP $179.00

CompactKit 7

7-Pad Portable Tabletop Drum Kit

Alesis

The Alesis CompactKit 7 is a tabletop electronic drum kit with seven velocity-sensitive drum pads that deliver realistic drum sound with the feel and response of real drums. It also comes with two pedals for hi-hat and kick drum, so you'll really feel as if you're sitting down at an actual set. There are 100's of built-in percussion voices, preset drum kits and play-along songs, so you can get started right away with your own customized sound.

00122034 ..... MSRP $399.00 • MAP $259.00

KR mini

Rhythm Drum Machine

Korg

A great companion for practicing guitar, bass, acoustic guitar, winds, or any type of instrument! The KR mini – an easy, simple and compact rhythm machine with a built-in speaker and optional batter power for play-anywhere convenience! Many musicians wish that they could enjoy casually performing while being backed up by real rhythm patterns rather than just a metronome. Korg has responded to these wishes with the KR Mini rhythm machine. It features a simple design that eliminates all complex functions, looks that overflow with nostalgia and analog-like controls. Playing a rhythm pattern is easy as making selection and pressing play. A total of 60 diverse rhythm patterns and 120 fills are ready to accompany you. Easy, simple and compact, the KR mini can play its role anywhere.

TOUCH SOUND

iRig® Pro DUO

2-Channel Mobile Audio/MIDI Interface for iOS, Android and Mac/PC

IK Multimedia

iRig PRO DUO is an universal, mobile 2 channels Audio and MIDIinterface that packs in an ultra-compact and highly portable enclosure,all the necessary connections for making or recording high-qualitymusic on the go with iPhone, iPad or Mac/PC. iRig PRO DUO comes with 2 analog combo inputs for connectingmicrophones or instruments, MIDI I/O, headphone output and stereobalanced line outputs.

Inputs can accept microphone (both dynamic and condenser), line or high-impedance (guitar, bass, etc.) signals and can be used on the field with condenser microphones that need Phantom power. When you use iRig PRO DUO on the go with your iOS device you'll need 2 AA batteries; as an alternative the DC In port allows you to connect iRig DUO to the external power supply that will supply all the needed energy to DUO. Instead, when using iRig DUO with Mac or PC, all needed power is supplied by the computer.

00153169 ..... MSRP/MAP $199.99

iRig Pro I/O

iMic

High Quality Recording and Playback for Your Mac or PC

Griffin Technology

Use iMic as an external sound card for your computer. iMic adds audio-in and -out capability through a computer's USB port. iMic's ease of use and near-universal compatibility make it the perfect solution for connecting microphones, musical instruments, turntables, tape decks – almost anything audio – to your computer. iMic is the all-you-need solution for capturing all kinds of sound, or for ripping your vinyl and tape music collection so you can enjoy it on iTunes and iPod (or on MP3 player, or burned to audio disc).

00123886 USB Audio Interface
..... MSRP/MAP $39.99

GRIFFIN

StudioConnect with Lightning

Audio and MIDI + Charging Dock for iPad 4, iPad Mini

Griffin Technology

StudioConnect gives your iPad: audio in and out, MIDI in and out, and a stereo headphone jack with its own volume control so you can monitor what's going in (or out). Digital music-making has never been easier. Owning an iPad makes it easier still, taking it to a whole new level of versatility and portability. Whether you're a serious musician, a confirmed hobbyist, or a budding composer, you know about MIDI (Musical Instrument Digital Interface). Unlike audio recording, MIDI lets you capture the digital instructions for a musical performance, and then play them back later on a MIDI instrument. In one compact device for your iPad, StudioConnect combines both the audio and the MIDI hemispheres of the audio world. Audio In and Out Plug your guitar into StudioConnect's mono 1/4" instrument jack and play directly into GarageBand or other apps. Or plug a recorder or mixer into StudioConnect's stereo 3.5 mm input jack and connect the whole band to your iPad. Left- and right-channel RCA plugs give you line-level stereo audio-out. For your headphone there's a separate front-panel 3.5 mm stereo jack with its own volume knob. MIDI In and Out For your MIDI controller or drum pad, StudioConnect's rear panel gives you a standard 5-pin DIN MIDI-in port. For MIDI Out, there's another 5-pin DIN MIDI connector on StudioConnect's rear panel. Connect it to your sequencer, patch bay, or other MIDI gear. This lets you launch your favorite MIDI controller app and use your iPad as a musical instrument. StudioConnect lets you connect everything for music-making to your iPad, and connect your iPad to everything musical. And as if that weren't enough, it even charges your iPad while you play.

00123891 ..... MSRP/MAP $149.99

iRig HD

High-Quality Digital Guitar Interface for iOS Devices

IK Multimedia

No matter where you are, iRig HD delivers pure high-quality digital input signal. It features a 24-bit A/D ultra-transparent converter that accurately preserves the nuances of your instrument. This means you can rock out on your iPhone, iPad, iPad mini, or Mac laptop or desktop computer, with studio quality sound. iRig HD features a standard 1/4" Hi-Z instrument input jack, and connects to your iOS device with the included 30-pin cable or the included Lightning cable.

Other features include:

- Preamp gain control
- High-quality low-noise, high-definition preamp
- Powered by the iOS device or USB
- Also works with line level signals from synthesizers, keyboards and mixers
- Ultra-compact and light-weight
- Comes with AmpliTube FREE apps (free download on App Store)

00120175..... MSRP/MAP $99.99

iRig 2

Digital Guitar Interface for iOS

IK Multimedia

With over 1 million iRig interfaces sold and over 20 million apps downloaded, iRig 2 represents the next stage in the mobile music revolution for iPhone, iPad, iPod touch, Mac, PC and Android. iRig 2 sports a new 1/4" output jack for seamless live performance integration. An added switch allows dual-mode operation: FX lets musicians process and send their signal to an external amplifier without an adaptor. THRU sends a clean signal, letting musicians use their mobile device as a tuner, recorder or other utility. iRig 2's new input gain control pot can be adjusted to provide optimum sound quality when using different instruments and mobile devices. iRig 2 comes with AmpliTube, a powerful multi-effects processor with an integrated music player, a dedicated recorder, a tuner and a vast collection of ultra-realistic digital models of some of the most famous amplifiers and stompbox effects of all time. Now everyone can take their playing to the next level with iRig 2, the ultimate interface for mobile musicians.

00142930 ..... MSRP/MAP $39.95

iRig HD-A

Digital Guitar Interface for Android

IK Multimedia

The iRig HD-A is the first high-quality 24-bit audio interface that fits in your pocket and connects directly to your Android device and PC. It features superior digital audio quality and offers a premium 24-bit A/D converter for a crystal clear digital signal that's free from noise and crosstalk. Plus, its ultra-low-draw power consumption circuitry eliminates the need for batteries – it's powered by your mobile device or computer. An onboard gain control allows you to dial in the perfect signal level for your instrument and apps, and a multicolor LED lets you know what's going on with your interface and signal. The iRig HD-A is compatible with AmpliTube for Android as well as any other real-time processing apps which support USB/OTG audio input. Use the iRig HD-A anywhere you play guitar – on the go, in the studio or on your PC at home.

00142410..... MSRP/MAP $99.99

iRig HD-UA

Digital Guitar Interface for Android

IK Multimedia

iRig UA is the first digital interface and FX processor that lets musicians enjoy high-quality recording and zero latency processing on any Android device with host mode. iRig UA allows plug-and-play zero latency processing with IK's popular AmpliTube multi-effects processor. iRig UA brings high-definition recording to Android thanks to its 24-bit converter, 44.1/48kHz sampling rate and crystal-clear, low-noise preamp. Its built-in DSP externally handles the processing for the included full version of AmpliTube UA, which provides a generous virtual collection of some of the most coveted amps and stompboxes of all time. An included 1/8" analog aux input allows musicians to play along with songs on their device or from an external sound source. Built for portability, iRig UA sports a compact enclosure and built-in rechargeable Lithium-ion battery. With iRig UA, Android users of all kinds can enjoy high-definition digital recording and zero latency processing while on the go.

00142931 ..... MSRP/MAP $99.99

iRig Acoustic

Acoustic Microphone/Interface for iPhone, iPod touch, iPad

IK Multimedia

iRig Acoustic is a revolutionary new microphone solution that easily connect your acoustic guitar to an iPhone, iPad Android device or Mac with stunningly professional sound quality. The size of a large plectrum, iRig Acoustic easily clips inside the sound hold of any acoustic guitar, yet delivers sound quality that rivals complex, expensive recording setups for a fraction of the price. iRig Acoustic captures the full range and timbre of your instrument in the most life-like manner. Unlike magnetic or piezo solutions, iRig Acoustic doesn't color the sound of your instrument, and offers extended frequency response and low-noise circuitry throughout. The output of iRig Acoustic connects directly to your iPhone, iPad, Android device, or Mac, and offers a 1/8" headphone output for monitoring. No batteries or power is required, making it an incredibly simple, compact way to perform or record anywhere. iRig Acoustic is designed to connect to IK's new AmpliTube Acoustic app, packed with tons of killer effects and features designed for acoustic guitarists. It's also fully compliant with dozens of other top apps, from Apple's GarageBand to Samsung's SoundCamp. With a revolutionary design, aggressive price point and killer sound quality, iRig Acoustic lets acoustic players in on the mobile music revolution.

00153171.....MSRP/MAP $49.99

iRig Acoustic Stage

Dual Mic Pickup System

IK Multimedia

iRig Acoustic Stage is a revolutionary new way to amplify your acoustic guitar for use live on stage. Just clip the ultra-compact microphone to your guitar and connect it to the belt pack, and enjoy a clear, uncolored sound like that of a professional microphone. 6 EQ settings and apersonal calibration ensure the best possible sound and instant feedback elimination make this an amazing new way to preserve the real tone of your instrument.

00214967 .....MSRP/MAP $99.99

iRig BlueBoard

Bluetooth MIDI Pedal Board

IK Multimedia

iRig BlueBoard is the first wireless MIDI pedalboard for iOS and Mac that allows you to control your music apps and more from the floor.

Now control parameters of your MIDI-compatible apps like AmpliTube wirelessly from the floor. Switch between presets, change patches, turn effects on and off and control effects like volume wah pedals all from the stage floor without worrying about tripping over wires. Setup is as simple as turning the iRig BlueBoard on and telling it what you want to control.

iRig BlueBoard features four backlit soft-touch pads housed in a sturdy, stage-worthy chassis, two TRS expansion jacks for connecting additional MIDI controllers like expression pedals, and is powered by four standard AAA batteries.

00119919.....MSRP/MAP $99.99

iRig Stomp

IK Multimedia

This is the first stompbox guitar interface for iPhone/iPod touch/iPad users! Guitar and bass players can now integrate their favorite iOS signal processing apps into their existing live pedalboard setup. The compact, aluminum-cast enclosure integrates easily into any traditional pedalboard. The iRig Stomp can be used inline with other effects pedals or directly connected to amplifiers or PA systems. Purchase of this package also includes a FREE Amplitube for iPhone or iPad download on the iTunes App Store.

G2M – Version 3

Universal MIDI Converter

Sonuus

MIDI guitar made simple! Plug in guitar, connect MIDI device, PLAY! The G2M is a simple-to-use, highly effective, guitar-to-MIDI converter. It is "universal" because it doesn't need a special pick-up mounted on your guitar, but instead simply connects to your guitar like any other effects pedal or tuner. Designed to give accurate triggering, with very low-latency, it is a true plug-and-play solution for monophonic MIDI guitar. It can be used to sequence bass lines and guitar solos and add an edge to your live performances – it opens up many creative possibilities.

- Any electric guitar/bass can be used as a solo MIDI guitar/bass
- No instrument modifications or special pickups required
- Robust note detection – minimizes wrong notes
- Fast, accurate pitch-bend determination, or chromatic mode
- Very low latency & very fast tracking
- Built-in precision tuner for standard guitar/bass tuning

iRig Mic
IK Multimedia

iRig Mic is the first handheld quality condenser microphone for iPhone, iPod touch and iPad – designed for all vocal and mobile sound needs. It's ideal for the singer, vocalist and songwriter on the move, but also perfect for recording speeches, instruments, performances or any other sound sources in the studio, on stage or in the field.

The iRig Mic features a highly unidirectional electret-condenser microphone capsule that provides quality recording, in both close mic and long distance mic conditions, and real-time monitoring with its dual mini-jack connector.

A three-level gain switch makes it instantly adjustable for any sound pressure condition - from soft speaking to loud playing. Its familiar form is perfect for handheld performance, plus it can be mounted on any mic stand leaving the iOS device free for app operation. Its rugged metal body is road-ready for the mobile musician.

iRig Mic also comes with VocaLive free, IK's new real time effects processor app suite for the singer and vocalist, iRig Recorder, the new IK free audio recording app and AmpliTube Free, the best selling app for guitar players and songwriters. iRig Mic also works with a multitude of other vocal and audio recording or processing apps for the iOS platform.

00750263 ..... MSRP/MAP $59.99

iRig Mic HD-A
IK Multimedia

iRig Mic HD-A is the first affordable high-quality handheld digital condenser microphone for Android. Now singers, musicians, journalists, videographers, podcasters and more can enjoy high definition digital audio while on the go. But versatility is just one of iRig Mic HD-A's many attributes. iRig Mic HD-A sports a 24-bit audiophile-grade A/D converter, a 44.1/48 kHz sampling rate and a low-noise/high-definition pre-amp.

You can count on iRig Mic HD-A to give you high quality results, anytime and anywhere. It can handle the most demanding professional needs in the field or in the studio and is comparable in quality to what you'd get in a mic that costs three times as much. iRig Mic HD-A features a sturdy metal body construction and an ergonomic handheld form factor that allows for hours of comfortable recording and performance. It can also be mounted on a standard mic stand using the included clip.

00146135 ..... MSRP/MAP $129.99

iRig Mic HD 2
IK Multimedia

iRig Mic HD 2 is a high-quality handheld microphone that connects directly to your iPhone, iPad and Mac/PC. Capture exceptional content anywhere with this convenient device.

Featuring high-quality 24-bit converters with sample rates up to 96kHz, a low noise preamp, a high quality, gold-sputtered electret condenser capsule and an onboard dedicated headphone output with volume control for direct monitoring, iRig Mic HD 2 offers unmatched quality and versatility at the most affordable price. It also comes with all the cables, accessories and software you need!

iRig Mic HD 2 features a headphone output with volume control (ready to use with the new iPhone), enabling users to directly monitor the sound or send the signal to a PA or a mixer for routing flexibility.

00251413 ..... MSRP/MAP $129.99

iRig Mic Studio
Digital Interace for iOS
IK Multimedia

iRig Mic Studio is the latest addition to IK's high-quality digital microphone line. It packs a 1" diameter condenser capsule into an ultra-compact enclosure that can be used with iPhone, iPad, iPod touch, Mac, PC and Android devices. Roughly the same length as an iPhone and with a diameter of just 45mm, iRig Mic Studio is less than half the size of competing large-diaphragm microphones. iRig Mic Studio's large-diaphragm cardioid electret condenser capsule, 133dB SPL rating, 24-bit 44.1/48kHz converter, high-quality low-noise preamp, gain control knob, multi-color LED level indicator, sturdy tripod base and other professional features ensure superior sound for every session. iRig Mic Studio also includes powerful apps and software: experience superior vocal processing with VocaLive, unparalleled mobile editing and recording with iRig Recorder and a vast collection of amps and stompbox effects with AmpliTube. With iRig Mic Studio, musicians, vocalists, home producers and more have a studio-quality large-diaphragm microphone that fits in the palm of their hand.

iRig Mic Lav

Lavalier Microphone for Smartphones and Tablets with Foam Pop Shield

IK Multimedia

The iRig Mic Lav is the audio solution for film, television or broadcasting scenarios. This lavalier mic provides convenient, crisp, high-quality audio, right into your smartphone or tablet. It's equipped with an omnidirectional condenser microphone to pick up sound from all directions, and the foam pop filter eliminates vocal plosives and wind noises. Any app that accepts input from a headset connection is compatible with the iRig Mic Lav.

00154951 .....$49.99

iRig™ Mic Cast

IK Multimedia

iRig™ Mic Cast is a quality condenser microphone, specifically designed to record vocal speech, in a compact enclosure with a stylish form factor. The iRig Mic Cast plugs directly into the 1/8-inch mini jack on the iOS device, and it features a clip that holds the mic in place on any iOS device. When used with iPhones or iPod Touches, the on-the-go user can hold it with just one hand. It also has a cardioid (unidirectional) polar pattern and a very effective pop filter for close miking of the human voice. The mic has a continuous gain control to help the user easily achieve the best signal-to-noise ratio and a tone control to adjust the color of the recording. The integrated built-in headphone output allows for real time monitoring.

00750483.....MSRP/MAP $39.99

iRig Mic Field

IK Multimedia

Introducing iRig Mic Field, the pocket-sized digital stereo microphone for Apple's range of Lightning-compatible iPhone, iPad and iPod touch devices. Designed to be used for both video and audio recordings, it features a patent-pending rotatable enclosure that you can easily position for the best stereo image in both landscape and portrait orientations. Now you can capture pristine sound no matter whether you're recording a rehearsal or a concert, capturing audio for videography, acquiring audio for a music project, recording instruments while on the move, saving a lecture or speech or creating your next viral video hit – iRig Mic Field lets you create accurate and faithful field recordings in any imaginable context.

00142409 .....MSRP/MAP $99.99

iRig Pre for iOS Devices

The universal microphone interface for iPhone/iPod touch/iPad

IK Multimedia

iRig PRE is the ultimate solution for connecting any type of microphone – from regular stage microphones to expensive studio models – to any iPhone, iPod touch or iPad providing access to the widest range of recording applications. iRig PRE is a high-quality microphone preamp designed specifically for iOS devices that allows musicians to use their favorite high-quality stage or studio mics with their iOS device. The microphone plugs directly into the standard XLR connector of iRig PRE with no need for extra cables or adapters. Its adjustable thumbwheel gain control allows the user to easily make precise level settings. The onboard 9V battery provides the necessary voltage for phantom-powered studio condenser microphones for at least for 15 hours of continuous use.

00750493.....MSRP/MAP $39.99

iRig Pre HD

High Definition Microphone Interface for iPhone, iPad and Mac

IK Multimedia

This digital, high definition microphone interface with studio quality preamp for iPhone, iPad, Mac and PC makes it easy to grab your favorite microphone and record straight to your device with true studio-quality sound, any time and anywhere. As pioneers of the mobile music revolution, IK Multimedia knows what it takes to produce great content on a portable device. Whether you are a musician, podcaster, journalist, videographer or vlogger, you instinctively know how important it is for your content to be the highest quality possible to be well received and how audio plays a critical role in the process.

00260962 .....MSRP/MAP $99.99

MIC INTERFACES

MiC 96k

Professional Microphone for Garage-Band on iPad, iPhone and Mac

Apogee

Introduced in 2011, the original MiC became the mobile microphone of choice for both aspiring and professional artists looking for that big-studio microphone sound. Redesigned for the future, the new Apogee MiC 96k delivers unsurpassed recording quality. MiC 96k is optimized for the latest Apple iOS devices, including the ability to record in pristine fidelity – up to 24-bit/96 kHz.

MiC 96k combines a microphone, microphone preamp and an A/D converter into one compact device. Apogee has carefully designed each part of MiC 96k to deliver the lowest noise and highest quality signal possible for a digital microphone. And it all fits in your pocket.

Apogee MiC 96k is a digital microphone designed to deliver studio quality recording you can take anywhere. Use MiC 96k to record vocals, spoken word, acoustic guitar, piano, drums... anything! Inspired by the most revered and classic microphone in history, MiC 96k is designed to sound amazing and be easy to use with your iPhone, iPad, iPod Touch or Mac.

MicConnect

Microphone Interface for iPhone, iPad and iPod Touch

Griffin Technology

Use your own microphone to record music on your iPhone, iPad and iPod touch. Whether you're practicing in your room, recording with your band, or just jotting down song ideas on the road, MicConnect makes it easy to record vocals on your iPhone, iPad, and iPod Touch. Once your mic has been connected to the XLR input on MicConnect, plug the 1/8" (3.5 mm) audio cable into your device's headphone jack and launch GarageBand or other compatible app to get rocking.

00123890 ..... MSRP/MAP $39.99

LOOPING MICROPHONE INTERFACE

Loopa®

The World's First Looper Microphone

Sonuus

A looper microphone works just like a normal microphone, but lets you record what you sing, replay it in a loop and sing over it. Beatboxing is very cool, but takes years to perfect. Acappella singing is beautiful, but you can't do harmonies on your own. With the Loopa you will be knocking out beatbox rhythms faster than ever before, and performing complete acappella songs before you know it. The Loopa makes it super-easy to record a loop and sing over it. This lays the foundations for a great performance. Beatboxers create complex rhythms by quickly making different sounds. This is hard to do, and takes a lot of practice. Using the Loopa you can record a simple beat and loop it. Then add more sounds on top of it. Very quickly you end up with a complex rhythm. As a beginner, it's a great way to start beatboxing. As an accomplished artist, it lets you expand your performance even further. But the Loopa isn't just for singers. If you can make a noise, you can loop it. Hit it, bang it, loop it!

Adding a standard looper to an existing microphone would have been possible, but wrong.

iRig PowerBridge

Power Source for iRig Accessories

IK Multimedia

iRig PowerBridge is a streamlined continuous charging system for iPhone, iPad and iPod touch that lets musicians practice, perform and record with their favorite digital iRig accessories for as long as they want. iRig PowerBridge comes with a power supply that connects to the power grid on one end and a connector that plugs into the device on the other end. Its female Mini-Din connector lets musicians plug any digital iRig accessory into iRig PowerBridge. Through this connection, PowerBridge allows continuous charging of an iOS device and pass-thru of audio and MIDI information from an iRig accessory. iRig PowerBridge comes in two versions with either a Lightning or 30-pin cable. Both also include a power adaptor and Mini-Din to Mini-Din and Mini-Din to Micro-USB cables that allow continuous charging with the full iRig range during use. iRig PowerBridge also features a status light that provides at-a-glance visual feedback during charging. With iRig PowerBridge, now musicians can use their iOS device and enjoy IK's digital iRig accessories and sound processing apps for as long as they want.

00142933 .....MSRP/MAP $69.99

iRig PADS

IK Multimedia

iRig PADS is a portable MIDI pad controller iPhone/iPod touch/iPad, and Mac/PC that makes it easy to play and control virtual drum, percussion and electronic instruments, anytime and anywhere. Turn your mobile device or laptop into the ultimate groove production station for making beats and electronic tracks. Sixteen pads, in a standard 4x4 configuration, feature velocity sensitivity and provide a superior feel to onscreen tapping. Each pad lights up in three different colors to react to your playing or in response to messages from your apps. iRig PADS is also equipped with two assignable knobs, a pushbutton rotary encoder, two buttons and a slider, all of which are programmable.

iRig PADS is MIDI class-compliant, meaning it works with hundreds of music creation apps on iOS, Mac and PC, with no drivers to install. It comes pre-loaded with a range of presets for the most popular apps, and users can create and save their own settings as well. Lightning, 30-pin and USB connection cables are all included, as is the SampleTank FREE app for iOS and SampleTank 2L software for Mac/PC.

00125681 ..... MSRP $149.95 • MAP $149.99

iRig™ Mix

IK Multimedia

iRig™ Mix is an ultra compact portable DJ mixer tailored for use the iPhone, iPod Touch, and iPad. You can easily mix two stereo audio signals and crossfade between them. An input trim stage lets you amplify any source, and the 2-band EQ gives you flexible tonal control over each input. A microphone can be connected for DJs, rappers or announcers, and any electric instrument such as a guitar or bass can be connected. All inputs can be internally compvined in the iRig Mix. A CUE system is also included which enables the DJ to preview individual channels at the headphone output to prepare the next song (sync the tempo, adjust the EQ, match the volume, etc.) to ensure smooth mixes. iRig Mix comes eith IK's free VDJ application for iPhone and iPad and is the perfect companion for all the other popular DJ-related apps in the App Store. iRig Mix can also function as an audio interface for AmpliTube and VocaLive, for mixing small bands and even karaoke applications.

IK Multimedia. Musicians First.

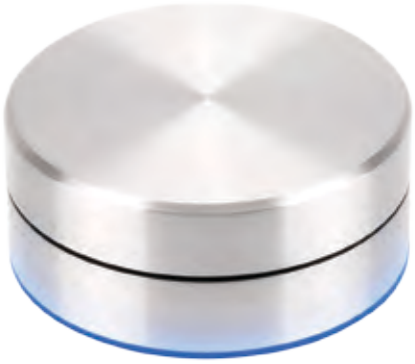
PowerMate

User-Programmable USB
Multimedia Controller & Input Device

Griffin Technology

The quintessential control knob for all USB computers, PowerMate spins like a knob, and clicks like a mouse, but it's so much more! Use PowerMate to speedily shuttle through large multimedia files, spreadsheets, word processor documents. Connect multiple PowerMates – as many as 127 – and assign an independent function to each of them! You can even control the behavior of the pulsing LED in PowerMate's base to give you system status at a glance.

00123893 .....MSRP/MAP $44.99



PowerMate Bluetooth® LE

Wireless Programmable Controller

Griffin Technology

Wirelessly control everything, from volume to keyboard shortcuts. PowerMate Bluetooth is the wireless programmable knob that replaces extra keystrokes with a simple twist or a click. It spins like a knob. It clicks like a mouse. And it's programmable, to replace repetitive keyboard commands. It looks like a great big, shiny, glowing volume knob. And, sure, you can use it for that, right out of the box. But it's capable of so much more. PowerMate is configurable, so it can control practically any Mac application out there. It comes preset for volume and track control, but through the included PowerMate software you can add your own actions for the software you use every day.

00131402 .....MSRP/MAP $69.99

HEADPHONE AMP

Groove

Portable USB DAC and
Headphone Amp for Mac and PC

Apogee

Apogee Groove is the best portable USB DAC and headphone amp for listening to music on your Mac or PC. Groove takes the same high quality audio technology found in the world's most prestigious recording studios and delivers it to your laptop. Connect Groove directly to your computer and connect your headphones or powered speakers directly to Groove.

For 30 years, Apogee has been an innovator and industry leader in digital audio recording. Now Groove makes Apogee sound quality available in a simple take-anywhere device dedicated to delivering the ultimate listening experience. Unlock the full potential of your high-res audio files, rediscover your iTunes library and stream Spotify, Pandora or your favorite music services with incredible clarity and detail.

Groove's Constant Current Drive output stage is a truly revolutionary approach to dealing with the wide impedance variations of headphones available on the market today. With Constant Current Drive technology, Groove's output stage's voltage is dynamically "molded" to the impedance variations of the connected headphones, thereby smoothing out frequency response non-linearity that occurs with traditional headphone outputs.

4-Pedal Wireless Page Turner

AirTurn

Turn pages, navigatee setlists, transpose keys, toggle backing tracks, trigger metronomes, and even control guitar/bass/amp effects. This AirTurn QUAD 4-pedal board comes with the AirTurn Bluetooth transceiver, 4 ATFS-2 black silent pedals that connect to the transceiver, the AirTurn non-slip pedal board, and a USB recharging cable. The Bluetooth transceiver may be easily removed for use with other applications.

The transceiver features an internal lithium battery that can be used for up to 100 hours on standby. It connects wirelessly to your tablet or MAC/PC computer via Bluetooth and may be easily. The ATFS-2 black pedals are constructed of nearly indestructible polycarbonate plastic and feature a proprietary "mechanism-free" switch system for perfectly silent operation.

00142937 .....MSRP/MAP $149.00

TAP

Bluetooth Page Turner

AirTurn

So what if you're a drummer and your hands and feet are busy? The AirTurn TAP provides a piezo interface that takes a tap from a finger or drum stick to trigger an event. Using all the same features as the BT-106 series transceiver, the TAP brings easy-to-use page turning and events to drummers and other active percussion players. Comes with all mounting hardware to mount on any post up to 1.5 inches in diameter. Position can be set at any angle and height.

AirTurn continues to grow their Pro-Sumer line of wireless controllers with the TAP. Turn the pages of your digital documents wirelessly, with the AirTurn TAP Bluetooth controller! The TAP connects via Bluetooth to your Mac, PC, or tablet computer (Android or iOS). Use it to manage your sheet music while you're drumming or playing percussion. Simply give it light tap from a finger or drum stick, and you're on to the next page! TAP can even control audio playback. You are only limited by the hundreds of apps that work with the Pro-Sumer line of AirTurn wireless controllers.

iLine

Cable Kit for iOS Devices

IK Multimedia

Have you ever been in a situation where you didn't have the right cable for the job? With the iLine Mobile Music Cable Kit, you'll never be without options. The kit is a complete collection of six high-quality audio cables (with a convenient travel case), designed to provide users of smartphones, tablets, MP3 players and laptops with the tools they need to handle virtually any signal routing and audio-cabling situation. The kit covers a wide range of mobile and audio applications, including hard-to-find ones like converting stereo signals to mono, extending a headphone cable (and still being able to use the built-in mic), or easily connecting your phone or laptop to DJ or home stereo gear.

iPhone/iPod Touch Adaptor Cable

Peterson Strobe Tuners

This adaptor cable has been specifically designed to function with your mobile Apple or Android phone/tablet device.

- Connect an instrument, microphone, or tuning pick-up with a 1/4" plug directly into your device using the headphone jack
- The perfect accessory when used with iStroboSoft™ by Peterson Tuners (iOS only)
- Directly plug in your guitar or bass for tuning or use an external microphone (required for iPod touch) to tune brass or wind instruments
- Can be used with any application requiring an audio input
- Will not interfere with charger connector

00156486 .....$13.99

PowerDock 5

Griffin Technology

It takes up only about as much room on your countertop as a single iPad. But it gives you a place to store and charge 5 tablets at one time, from a single power source. PowerDock 5 gives each tablet its own charging connection and its own clear backrest. Each charging bay is roomy enough to accommodate your iPad and its case, so you'll never need to remove your iPad from its case to charge. Space-saving PowerDock 5 sits on your countertop or shelf, ready to charge. Please note: PowerDock 5 is optimized for all iOS devices (iPad, iPad mini, iPhone, iPod touch, iPod nano). PowerDock 5's 5 volt (2.1 amp) charging circuitry will also charge most Kindles and Android smartphones. Because many devices have unique charging requirements, charging times vary. Check your device's manual for its special requirements.

MIGHTY BRIGHT®

iLoud®

Portable Personal Speaker for Musicians and Audiophiles

IK Multimedia

iLoud is the high-performance, battery-operated portable speaker for musicians and audiophiles. Rated at powerful 40W RMS, it providees up to five times the volume of comparably-sized speakers. Connect your smartphone, tablet, laptop or MP3 player, and get ready to be blown away. A speaker system needs to sound good at all volumes, and reproduce the music the way it was meant to sound. IK has leveraged its 16-year experience in creating tools for professional recording studios into developing iLoud's two-way, high-definition speaker system, onboard DSP, digital Class-D amplifier and high-performance enclosure. For the first time, you can enjoy studio-class sound and performance, comparable to professional monitors, in a surprisingly small package. iLoud connects via Bluetooth or to the headphone output of your smartphone, tablet or laptop. iLoud is also equipped with an iRig 1/4" instrument input, so you can plug in a guitar, bass, keyboard or dynamic mic and jam along to your music using an iPhone, iPod touch or iPad for real-time effects processing.

Sadie

Premium Headphones with Built-in Amp

Blue Microphones

Nowadays, you probably listen to more music on your laptop and phone than anywhere else. Ironically, those devices have weak, noisy audio outputs that really aren't made for music. That inspired us to reimagine the modern headphone and design it around a built-in audiophile amplifier, which delivers dynamic, detailed and clear sound – no matter what you're plugged into. Sadie is the evolution of the ultimate listening experience first pioneered by Blue's groundbreaking Mo-Fi powered headphones. By further refining Blue's revolutionary fit and sonic soundstage, Sadie delivers even higher levels of performance to reveal new details in your favorite music. The result is a headphone that makes every device sound like a big home hi-fi system. You won't believe how much music you've been missing.

Features include:

- High-powered custom audiophile amplifier onboard
- Custom 50mm drivers deliver incredible sound
- Revolutionary personalized fit for superior comfort
- Sealed over-ear design for immersive isolation

00233516.....MSRP/MAP $399.99

Mix-Fi

Powered High-Fidelity Headphones with Built-In Audiophile Amp

IN-EAR EARPHONES

Over 30 years ago, Etymotic invented noise-isolating, in-ear earphones. Etymotic's original design, developed for auditory research and hearing testing, used balanced – armature receivers and established these speakers as the gold standard for high-definition, in-ear earphones. ER4 earphones were the first high-fidelity, noise isolating in-ear earphones to use this technology in a consumer earphone, and are recognized as the world leader for response accuracy to which all other earphones are compared.

ER4® SR

Studio Reference Earphones

Etymotic

The SR model has a flat response.

00214953 ..... $349.00

ER4® XR

Extended Reference Earphones

Etymotic

The XR model has a slight bass boost.

00214954 ..... $349.00

ER3SE In-Ear Earphones

Studio Edition

Etymotic

The ER3SE Studio Edition provides a high level of sensitivity, making it a perfect match for porta-ble media players on the market today. The ER3SE delivers high accuracy with a flat response, re-sulting in professional grade sound reproduction at an affordable price.

Features include:

- Studio grade accuracy
- Precision machined metal bodies with anodized finish
- 35+ dB of external noise isolation
- Assortment of eartips
- Detachable cable allows for easy replacement
- High-performance balanced-armature driver

00262426 ..... MSRP/MAP $179.00

ER3XR In-Ear Earphones

Extended Response

Etymotic

The ER3XR Extended Response builds on the sound quality of the ER3SE, while providing a slight bass boost for those listeners who prefer a lift in the low end response.

Features include:

- Enhanced and extended bass
- Precision machined metal bodies with anodized finish
- 35+ dB of external noise isolation
- Assortment of eartips
- Detachable cable allows for easy replacement
- High-performance balanced-armature driver

00262427 ..... MSRP/MAP $179.00

Sound Tap

Ultimate Ears Personal Monitoring System

Logitech

Turn any stage mix into a headphone mix when you start using in-ear monitors now with the Sound Tap personal monitoring system. Sound Tap works with any stage setup. If sits between any mixing board or speaker. You can support both line level and speaker level inputs.

Features include:

- Spike protection and active impedance matching
- 20 Hz - 20 kHz frequency response
- ~30 hours of battery life on a pair of 9V batteries
- 1/8" stereo headphone jack, 1/4" Combo XLR

00242597 ..... MSRP/MAP $249.00

UE 900

Ultimate Ears 900 Noise-Isolating Earphones

Logitech

Crafted and tuned by same engineers who build our pro earphones for recording artists and sound engineers, the Logitech UE 900s feature a unique quad-armature design-two for the low end, one for the mid-range, and one for high frequencies. The result is nothing short of a revelation in music listening – a wide, front-row-center soundstage, take-your-breath-away depth and clarity, piano-like timbre, and just the right amount of color on the bass and treble.

The Logitech UE 900s come with two detachable, braided cables. The mic and on-cord controls let you answer calls with just one touch, change tracks and adjust volume-all without touching your iPhone® or iPod®. A second standard cable is included for those who need to listen to music and nothing else.

Elevate 3 MKII

Powered Desktop Studio Speakers

Alesis

Alesis Elevate 3 studio speakers deliver full-range sound with impressive clarity and warmth to all your mixes, masters and multimedia content. Elevate 3 speakers bring out every detail of the sound, unencumbered and crystal clear. Unlike conventional speakers that use vibration-prone plastic cabinets, the Elevate 3's dense wood cabinets suppress clarity-robbing resonances, resulting in clearer sound and stronger bass. Elevate 3 studio speakers contain powerful, three-inch woofers and crisp-sounding one-inch silk-dome tweeters that deliver full lows, clean highs and a precise stereo image. The internal amplifier is custom-designed and equalized to work perfectly with the Elevate 3's drivers, for impressive impact and output capability. For ease of operation, the Elevate 3's on/off/volume knob is conveniently located on the front panel of the right speaker.

00241101 ..... MSRP $199.00 • MAP $99.00

Elevate 5 MKII

Powered Desktop Studio Speakers

Alesis

Alesis Elevate 5 studio speakers enable you to listen to mixes, masters and multimedia content with impressive clarity and warm, full sound. Elevate 5 speakers bring out every detail of your sound, unencumbered and crystal clear. Their custom wooden cabinets have a dense construction that provides natural bass. Elevate 5 studio speakers contain powerful, five-inch woofers, crisp, one-inch silk-dome tweeters and dedicated power. Alesis engineers carefully selected and tuned these crucial components to work in concert as a single unit within the custom wood cabinet to deliver full lows, clean highs and a detailed compelling stereo image. Unlike passive speakers, Elevate 5 speakers have a volume knob built right in to the front panel for easy control.

IK Multimedia

iLoud Micro Monitor is a full-featured ultra-compact stereo reference monitoring system. It's a pair of portable studio monitors with a professional-quality bi-amplified design that provides a true and accurate sound with a true linear frequency response. iLoud Micro Monitor is powered by four ultra efficient class D power amps that deliver a combined 50W RMS of power. Each offer extreme clarity and superior bass response via two 3/4" tweeters and two 3" woofers. These features are augmented by an on-board 56-bit DSP processor. It gives you total control of the monitor's performance, allowing for stunningly accurate and detailed sound for mixing in small spaces without the typical compromises of small monitors.

iLoud Micro Monitor can be adjusted to suit different playback situations thanks to its two positionable angles of inclination and three dedicated EQ switches: bass, treble and a "free field"/"desktop" compensation switch. These switches let you optimize its sound for your listening environment. It also comes with a full range of source options that includes Bluetooth streaming as well as RCA and 1/8" inputs. iLoud Micro Monitor is perfect for mixing, mastering, composing, producing, critically listening and more in a wide variety of situations both while traveling and while at home or in the studio.

MBA28/MBA38
Microphone Boom Arms
Samson Audio

These microphone boom arms are the perfect microphone accessories for any radio, podcast or home studio setup. The articulating design of the MBA28 and MBA38 provides a maximum horizontal/vertical arm reach of 28" and 38" respectively, giving users convenient flexibility with their mic placement. Both models also feature internal springs that allow for silent and effortless positioning, which is ideal while recording or during live broadcasts.

With two mounting options included with each, the MBA28 and MBA38 can be temporarily attached to a table or desk with the C-clamp mount, or more permanently fixed to a surface with the flange mount. In combination with durable steel construction, both mic boom arms offer 58"-27 mic clip threading that can accommodate any mic weighing up to five pounds.

00242905 28" $49.99

Tourtek Microphone Cables

Samson Audio

Tourtek Cables have been designed for musicians and sound engineers who require superior sound quality and demand ultimate reliability. The cables exceed the design goal by combining quality components like genuine Neutrik® connectors and durable low-noise wire with solid build construction.

Tourtek Instrument Cables feature inner stranded copper conductors covered by a PVC insulator, which is wrapped in a second carbon insulator, then wrapped in a braided copper shield with 96% coverage. This is protected by a 6mm PVC outer jacket. The low capacitance cable provides excellent rejection of RFI/EMI interference, extremely low handling noise and superior sound quality. These instrument cables are available in a variety of lengths to ensure you have the appropriate cable for any application and can be purchased with one right angle connector as well.

Korg

Don't let the price fool you! The affordable GA-1 Guitar Tuner/Bass Tuner is an excellent choice for any guitarist or bass player. The handy Tilt-Slit design provides easy viewing; Auto Power Off preserves battery life.

00220841 .....$17.99

GA-40

Guitar/Bass Tuner

Korg

The GA-40 is a dedicated, easy-to-operate guitar/bass tuner with automatic pitch detection. In Guitar mode it supports seven-string guitars (7B through 1E), and in Bass mode it supports six-string basses (Low-B and Hi-C). With the precision you expect from KORG, the GA-40 indicates the pitch quickly and accurately. The LCD needle-style display provides both the accuracy of an LCD as well as the easy viewing of a needle indicator, and the display has been enlarged for even better visibility. You can also use the built-in high-sensitivity microphone to tune an acoustic guitar.

00220842 ..... $18.99

Pitchclip Clip-On Tuner

Korg

Boasting fast pitch detection and processing, accuracy with ±1 percent, and a detection range that covers from A0 to C8, the Pitchclip outperforms many of the clip-on tuners on the market today. Combined with the affordable price and enhanced display, the Pitchclip is a remarkable value.

00750402 .....MSRP $29.99 • MAP $19.99

Pitchblack Mini

Pedal Tuner

Korg

Korg's Pitchblack pedal tuners have earned the trust of guitarists and bassists worldwide for their quality, design and durability. The Pitchblack mini is the latest addition to the renowned tuner series, now available in a smaller, sleek size. The Pitchblack mini appears smaller in size, yet embodies all of its superior tuner functionality. Featuring a large LED display with excellent visibility, it supports battery operation in spite of its compact size. The unit is also equipped with stabilizers to prevent it from overturning. Small but powerful, this is a high-quality pedal tuner that will meet the needs of any player.

00220838 .....MSRP/MAP $69.99

TUNERS

GripTune
Clip-On Tuner
Korg

KORG, tuning innovator and creator of numerous clip-on tuners, introduces the GripTune, a new, clamp-type tuner. With a weight of just 13 grams (0.46 oz) and an ultra-compact size, it can be unobtrusively attached to the headstock of your guitar for casual yet precise tuning. Accurate and discreet tuning for any guitar!

00220839 ..... $19.99

Mini Clip Digital Tuner
Model TP-32
TunePro®

This stringed instrument clip-on chromatic tuner from TunePro® turns a complete 360 degrees freely and features a white and green backlight.

Features include:
- Works for any stringed instrument: guitar, bass, violin or ukulele
- Chromatic tuning
- A0 (27.5Hz) - C8 (4186.00Hz)
- A4 frequency: 440Hz
- CR2032 battery

00222003 ..... $12.99

CT20 Clip-On Tuner
Samson Audio

Samson's CT20 Clip-On Tuner combines precision tuning capabilities with a hands-free design that makes accurately tuning guitars, basses, stringed, woodwind or brass instruments easier than ever. The CT20 attaches securely to the headstock of your guitar or bass, as well as a variety of other stringed and wind instruments, for hands-free tuning. Powered by an included single CR2032 battery, the CT20 provides two operating modes for maximizing battery life. After 10 seconds of inactivity, the tuner automatically enters an energy-saving mode that dims the display without shutting off the tuner. After 5 minutes, the unit will power off completely.

00140107 ..... MSRP $39.99 • MAP $24.99

CT260H
Clip-On Chromatic Tuner
Samson Audio

To keep your instruments sounding performance-ready at all times and in any lighting environment, the CT260H features a dynamic horizontal LCD display. The CT260H attaches securely to the headstock of your guitar or bass for hands-free tuning. A dual 360-degree ball-jointed clip stems from the rear of the tuner, allowing you to view the display at any angle. In addition, the CT260H offers convenient Auto On/Off features. The tuner powers On as soon as the display is placed in the Up position. In addition, it will automatically power Off when the display is placed in the Down position or after five minutes of inactivity.

Samson's CT260H Clip-On Chromatic Tuner's simple, yet efficient design helps to make it a tuning accessory that musicians will want in their gig bag.

00146574 ..... MSRP $29.99 • MAP $19.99

CT260V
Clip-On Chromatic Tuner
Samson Audio

Samson's CT260V Clip-On Chromatic Tuner combines precision tuning capability with a hands-free design and Auto On/Off features that makes accurately tuning guitars, basses and more easier than ever. To keep your instruments sounding performance-ready at all times and in any lighting environment, the CT260V features a dynamic vertical LCD display. The display offers a smooth, real-time response for exceptional tuning accuracy. The CT260V attaches securely to the headstock of your guitar or bass for hands-free tuning. A dual 360-degree ball-jointed clip stems from the rear of the tuner, allowing you to view the display at any angle.

00146575 ..... $24.99

FT50 Chromatic Tuner
Hartke

The Hartke FT50 Chromatic Tuner makes accurately tuning guitars, basses, and other stringed, woodwind and brass instruments an easy task. The FT50 offers two modes of tuning: Auto and Manual. When using Auto mode, the tuner automatically recognizes the note to be tuned, while Manual mode allows the user to select the note to be tuned. The FT50 also features a multi-segment LED display for tuning in well-lit or dark environments. Conserving the two included AAA batteries that power the tuner, the FT50 features a convenient auto-shut off function if it is not in use for 10 minutes.

00140185 ..... $24.99

TUNER ACCESSORIES

TP-3 Clip-On Tuner Pickup

Peterson Strobe Tuners

The Peterson TP-3 Clip-on Tuning Pickup includes a more sensitive piezo pickup than any previous model to improve the signal transmission of your acoustic instrument into your tuner. The larger opening can now accommodate even the most challenging placement. Higher gripping tension ensures that the TP-3 stays in place without damaging your instrument. Use with any instrument and any tuner. Totally isolate your instrument from any other sound in the room, permitting confident tuning even in the noisiest environments.

00156484 ..... $16.95

PitchGrabber Mobile

Clip-On Tuner Pickup

Peterson Strobe Tuners

The PitchGrabber Mobile tuning pickup easily and safely clamps on to virtually any musical instrument and captures the pitch using its piezo pickup sending it directly to your mobile tuning application. The PitchGrabber Mobile uses the headphone/mic input of your mobile device to completely isolate the sound of your instrument and provide a direct input path to your tuning application. Perfect for tuning in noisy environments.

00156485 ..... $19.99

iPhone/iPod Touch Adaptor Cable

Peterson Strobe Tuners

This adaptor cable has been specifically designed to function with your mobile Apple or Android phone/tablet device.

ETY•Plugs

High-Fidelity Earplugs

Etymotic

ETY•Plugs® are the world's highest fidelity non-custom earplugs. They reduce most noise to safe levels while preserving the clarity of speech and the richness of music. ETY•Plugs are configured to replicate the natural response of the ear canal so that when sound enters the earplug, it is reproduced unchanged, exactly the same as the ear would hear it, only quieter.

00121857 Standard Blue Tip/ Clear Stem $14.95
00121860 Large Blue Tip/ Clear Stem $14.95

ER•20XS

High-Fidelity Earplugs

Etymotic

The ER•20XS is the next generation of Etymotic's industry-leading ETY•Plugs High-Fidelity Earplugs. ER•20XS eartips are interchangeable, and they can also be used with foam eartips with essentially no change in response. ER•20XS earplugs come with three interchangeable pairs of eartips for more fitting options. Foam eartips on ER•20XS Universal Fit earplugs work in conjunction with the advanced technology in the earplug itself, offering protection and clear communication. ER•20XS Universal Fit Earplugs feature a stem-less design, with a low profile that conforms to the plane of the outer ear. This makes them particularly comfortable to wear under hats and other headgear. A small, flexible pull tab allows for easy removal. Includes Earplugs with 3 pairs of eartips, case and neck cord.

00157383 Universal Size Clear.....$24.95

MP•9-15 Music•PRO

High-Fidelity
Electronic Musicians Earplugs

Etymotic

The ultimate in hearing protection. Designed for musicians who want to hear naturally, need protection when hearing is at risk, and want to avoid the inconvenience of removing earplugs to hear. Music•PRO circuitry automatically changes output levels as sound input levels change. Hearing is natural, as if nothing is in the ears, until sound exceeds safe levels. As sound levels increase, earplugs gradually provide 9- or 15-dB sound reduction. Natural hearing is restored when sound returns to safe levels.

00157384 .....$299.95

ETYMŌTIC

mk5

Isolator Earphones

Etymotic

mk5 isolator earphones are the newest addition to Etymotic's high-fidelity Isolator earphone series. Like other members of the Isolator series, the mk5 matches the ear's response for natural sound reproduction over a broad frequency range. In addition to awesome sound, Isolator earphones promote hearing safety. Their sound-blocking capabilities reduce the impulse to turn up the volume in order to drown out unwanted noise from the outside world. Quiet passages and soft dynamics come through clearly, and loud passages don't hammer your eardrums. These low-profile, in-ear earphones fit comfortably with hats and helmets. Ideal for commuting, travel and sports activities. Features 98% (35-42 dB) noise isolation, 6-mm drivers with Accu•Chamber Technology with high-gloss finish.

00157385 .....$59.95

hf5

High-Fidelity, Hands-Free Noise-Isolating Earphones

Mighty Bright

This light features nine energy-efficient LEDs casting bright white light over your music. The broad, padded clip and flexible gooseneck allow for versatility in placement, and the base can be used freestanding. A sliding switch controls two brightness settings. The light folds up easily for convenient storage, and a durable travel bag is included. Powered by 3 AA batteries or AC adapter, which are both included.

00125712 .....MSRP $74.99
..... MAP $59.99

Wonderflex Music Light
Mighty Bright

The WonderFlex is an updated version of Mighty Bright's bestselling XtraFlex2 LED Light. The two-LED WonderFlex is a multipurpose music light. It is constructed of matte silicone and features Mighty Bright's award winning contemporary design language. Its LEDs are precisely calibrated to cast warm white light, eliminating any concerns of harsh, bluish light sometimes associated with LED technology.

00182832 ..... MSRP $23.99
.....MAP $18.99

XtraFlex Music Light
Mighty Bright

Get flexibility and brightness in one with this light. Features one bright white, energy-efficient LED and a flexible gooseneck that holds the light firmly in place. The small base provides stability, and a sturdy clip allows you to also attach it to a stand. Powered by 3 AAA included batteries.

00125718 ..... MSRP $14.99
.....MAP $11.99

XtraFlex2 Music Light
Mighty Bright

The perfect light for situations that call for extra flexibility! An adjustable gooseneck holds the energy-efficient LED lights in place, and you can use one or two LEDs by tapping a button. The base can be use free-standing or with the stury clip. Powered by 3 AAA included batteries.

00125717 ..... MSRP $19.99
.....MAP $15.99

MIGHTY BRIGHT®

Light Cradle — Black
Mighty Bright

This wide-base cradle holds your light in a secure, stand-up position. It attaches and detaches to the base of the light with a spring-loaded clip. For use with Hammerhead, XtraFlex, XtraFlex2, Duet, Duet2, and Stage/Pedal Board lights.

00125725 ..... MSRP $6.99
.....MAP $5.59

GearHead Utility Light
Mighty Bright

A single LED casts an even white beam from this adjustable headband, freeing up your hands. A push button switch controls lighting modes for high, low, and flashing, and the light head tilts to direct light where needed. Powered by two included AAA batteries, this light's beam shines for 50 meters. Musicians will love this light for backstage use or loading gear at night!

00128339 Gray Headband
..... MSRP $24.99
.....MAP $24.99

LED AC Adapter
Mighty Bright

This AC adapter works with all Mighty Bright AC ports, available on select models. Cord length: 10 feet. Input: 100-240V AC, 50-60Hz, 0.1A. Output: 4V DC Current: 400mA max.

00125726 ..... MSRP $12.99
.....MAP $10.39

HOW TO ORDER

BY PHONE

Call the Hal Leonard E-Z Order Line at 1-800-554-0626, Monday through Friday between 8:00 a.m. and 8:00 p.m. or Saturday 9:00 a.m. - 5:00 p.m and Sunday 11:00 a.m. - 3:00 p.m. Please have ready the following information:

- Your customer account number
- Your purchase order number
- Special shipping instructions (if any)
- Quantity of each item
- Hal Leonard inventory number of each item (the 8-digit number listed with all products)

BY E-MAIL

Simply e-mail us at **sales@halleonard.com** with the same information as above.

ON LINE

Visit Hal Leonard on the internet at **http://dealers.halleonard.com**. Ask your sales rep about our dealer access web features.

BY MAIL

For stock orders, simply indicate the quantity of each item you wish to order directly in this catalog and mail it back to us. A Hal Leonard sales representative will be happy to provide you with a replacement catalog.

BY FAX

You may fax your order to 414-774-3259. Be sure to put "Attention: Sales" on your cover page, and include all of the same information listed under the "By Phone" section.

INTERNATIONAL ORDERS

For international inquiries, please contact the Hal Leonard International Sales Department at **internationalsales@halleonard.com**.
Canadian Dealers, please contact the Sales Representative for Canada at **sales@halleonard.com.**

CUSTOMER SERVICE

Should you have any questions regarding your account (shipping, orders, etc.), please call our Customer Service Department in Winona, Minnesota, toll-free at **1-800-321-3408** Monday through Friday between 8:00 a.m. and 5:00 p.m. C.S.T.

CREDIT QUESTIONS

Should you have any questions regarding credit or billing of your account, please call our Credit Department in Winona, Minnesota, toll-free at **1-800-321-3408** Monday through Friday between 8:00 a.m. and 5:00 p.m. C.S.T. or write to:
